**TAKING THE EXAMINATION BY COMPUTER**

Taking the PSI examination by computer is simple. You do not need any computer experience or typing skills. You will use fewer keys than you use on a touch-tone telephone. All response keys are colored and have prominent characters. An illustration of the special keyboard is shown here. You may also use the mouse.

**REPORTING TO THE EXAMINATION SITE**

On the day of the examination, you should arrive at least 30 minutes before your appointment. This extra time is for signing in and familiarizing you with the examination process. *If you arrive late, you may not be admitted to the examination site and you will forfeit your examination fee.*

**REQUIRED IDENTIFICATION AT EXAMINATION SITE**

You must provide 1 form of identification. It must be a VALID form of a state issued identification (driver's license or state ID), which bears your signature and has your photograph. All identification provided must match the name on the eligibility notice that you receive from DAS.

**SECURITY PROCEDURES**

The following security procedures will apply during the examination:

**IDENTIFICATION SCREEN**

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station,

you will be prompted to confirm your name, identification number, and the examination for which you are registered.

## TUTORIAL

Before you start your examination, an introductory tutorial to the computer and keyboard is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice using the keys, answering questions, and reviewing your answers.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

## EXAMINATION QUESTION EXAMPLE

During the examination, you should press 1, 2, 3, or 4 to select your answer or press "MARK" to mark it for later review. You should then press "ENTER" to record your answer and move on to the next question. A sample question display follows.

**IMPORTANT:** After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

## EXAMINATION REVIEW

PSI, in cooperation with DAS, will be consistently evaluating the examinations being administered to ensure that the examinations accurately measure competency in the required knowledge areas. While taking the examination, examinees will have the opportunity to provide comments on any questions, by using the comments key on the keyboard. These comments will be analyzed by PSI examination development staff. PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. **This is the only review of examination materials available to candidates.**

## **SCORE REPORTING**

Your score will be given to you immediately following completion of the examination. A minimum score of 70 percent correct is required to pass your exam. The following summary describes the score reporting process:

- **On screen** - your score will appear immediately on the computer screen. This will happen automatically at the end of the time allowed for the examination;
  - If you **pass**, you will immediately receive a successful notification.
  - If you **do not pass**, you will receive a diagnostic report indicating your strengths and weaknesses by examination type with the score report.
- **On paper** - an unofficial score report will be printed at the examination site.

## DUPLICATE SCORE REPORTS

You can write to PSI to request a duplicate of your score report.

## CERTIFICATION CARD

If you pass, your score report identifies you as certified until such time as you receive your permanent certification card. Your certification card will be mailed to you within two weeks after you take the exam to the address you have provided to DAS. Please notify PSI of any address change.

Note: PSI is responsible for mailing out the permanent certification cards. Please do not call DAS with questions about when you will receive your card.

## CERTIFICATE RENEWAL INFORMATION

You will need to renew your certificate every 3 years. You must complete 32 hours of continuing education prior to the renewal, from an approved educational provider in California. Your personal information, ie., addresses and phone numbers must be updated with DAS.

## **TIPS FOR PREPARING FOR YOUR CERTIFICATION EXAMINATION**

The following suggestions will help you prepare for your examination.

- Planned preparation increases your likelihood of passing.
- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Read study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice. Underline or highlight key ideas that will help with a later review.
- Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

## EXPERIMENTAL ITEMS

In addition to the number of questions per examination, 10 "experimental" questions may be administered to candidates during the examinations. These questions will not be scored and the time taken to answer them will not count against examination time. The administration of such non-scored experimental questions is an essential step in developing future licensing examinations.
