PSI NATIONAL TESTING - GENERAL INFORMATION

The Esthetician Guide to Testing provides test takers with information about the PSI National Tests and application process for a Esthetician license in Tennessee.

The Tennessee Board of Barber and Cosmetology Examiners has contracted with PSI to conduct the National Barber and Cosmetology Program (NBCP) testing in their state. PSI provides tests through online proctoring computer-based theory testing, online practical testing, and a network of testing facilities within Tennessee. PSI works closely with the State of Tennessee to be certain that our tests meet local as well as national requirements in basic principles and test development standards.

TEST APPROVAL

Test takers must be pre-approved to take the test. The education provider will provide an eligibility electronically to PSI upon a student's successful completion of the course requirements. Email confirmation will be received immediately after the document been submitted.

After the provider has submitted the document to PSI, test takers will go to <http://test-takers.psiexams.com/tncosmetology> or call 1-(855) 340-3710 to pay testing fees and schedule for their test. In the case PSI does not have a test taker eligibility record on file, test takers need to contact their education provider to submit the documentation to PSI.

The PSI National Esthetician Theory test is offered in Vietnamese and Spanish, as well as English in Tennessee.

NAME CHANGE INSTRUCTIONS

If a Test takers name differs on any paperwork, they will need to provide documentation of legal name changes. We may require marriage certificates, or other legal documents, additional documentation may be required if the name has changed multiple times.

TEST PAYMENT AND SCHEDULING

Test takers must pass the National Esthetician Theory test before they may schedule the National Esthetician Practical test. Test takers have 3 years to pass both tests to qualify for licensure. Once both tests are passed, they have 6 months to apply for a license.

TEST REVIEW

In cooperation with the Tennessee Board of Cosmetology and Barber Examiners, PSI will consistently evaluate all tests being administered to ensure that the tests accurately measure competency in the required areas of knowledge. Comments may be given in writing to the test proctor at the conclusion of the test. Test takers may also submit comments on their computer during the theory test. Comments are entered by clicking the [Comments](#) link on the function bar of the test question screen.

Comments will be received by the PSI test development staff. PSI will not respond to individuals regarding these comments; however, all comments are reviewed. In the case a discrepancy is found, PSI and the State Board could re-evaluate test takers' results and adjust them accordingly.

This is the only method to review theory test questions available to a test taker. There is no review process for a practical test.

- If the score is PASS, test takers receive an on-screen successful notification.
- If the score is a NOT-PASS, test takers receive an on-screen un-successful notification, with a diagnostic report indicating strengths and weaknesses that may require further study to pass a test.
- Registration forms to retake the test will be available at the PSI testing web site or the previously mentioned processes.
- **PAPER/PENCIL TESTING** - an official score report will be printed at the test site and given to the test taker.
- **ONLINE TESTING** - An official score report will be emailed to the test taker within 24 hours of their test completion.

To better prepare for the PSI National Esthetician Theory test, test takers can now review by taking an online practice test. Go to <http://test-takers.psiexams.com/tncosmetology> for more information and to register!

* Practice tests are intended to aid test takers with live test questions to study. The purpose is to familiarize a test taker with the general types of questions that will appear on a licensing test. These questions are NOT a substitute for education and study. Scoring well on the practice test also will not guarantee a positive outcome on the actual licensing test. This is the ONLY official PSI study for the test, PSI does not recognize nor endorse other study guides that may be offering information on the PSI National Cosmetology and Barbering Program. The PSI practice tests are offered to review an unlimited number of times; however, a fee is assessed for each time the test is utilized for review.

OBTAINING A DUPLICATE SCORE REPORT AND/OR LICENSE APPLICATION

To request a duplicate score report and/or a license application after leaving the test, test takers may email scorereport@psionline.com or call Customer Service (855) 340-3710.

PSI NATIONAL PRACTICAL TEST- IMPORTANT GUIDELINES

For practical test questions or concerns, we recommend test takers and instructors to email cosmetology@psionline.com.

Test takers should familiarize themselves with the following instructions to be properly prepared for the test, prior to registration.

- **During the practical test, test takers must follow all appropriate rules for client protection that will ensure the health, safety, and welfare of the public.**
- **A proctor will be monitoring time during the test. Personal timers are not allowed in the testing room. Test takers will not receive a score for any activities not completed within the allotted topic area time limits. When the proctor gives an instruction to “Please stop working”, test takers are to immediately stop what they are doing, stand quietly, and wait for the next instruction to be given.**
- **Test takers are required to prepare and bring a closable container (“supply kit”), with all products, supplies, and equipment necessary to perform the topic areas included in this test. The container dimensions should not exceed 24”x24”x24” in size.**
- **Test takers are required to bring to the test, two containers to dispose of used items. One marked “Single-use” and one marked “multi-use”. All items used in the test are categorically disposed of in one of these containers.**
- **Products that are *not* grouped as “dangerous chemicals” by OSHA and are required to be listed on an actual business SDS sheet, may be fictitious with a self-created or actual label attached. Some other substance may be used inside the container to simulate a product.**
- **Chemical products that are required be listed on SDS sheets in an actual business, are required to be used from the original container with an original manufacturers label attached or in a container with the manufacturers label attached.**
- **Test takers may not observe other test takers during the test. PSI views and responds to this behavior as form of cheating. The test taker will be warned up to and including dismissal from the test. Please focus on individual tasks and do not depend on viewing the performance of other test takers to be successful.**
- **Test takers’ name and/or school names are to be covered on their person and supplies while in the test.**
- **The number one safety rule in our industry is: “Following Instructions”. There is no necessary or required style or technique a school needs to teach, or a test taker needs to perform. All topic areas are observed in the manner a Master Esthetician would normally complete a task. Tasks should be taken seriously and performed as instructed in the test and to the highest skill level they are capable. Scores are based on the test taker displaying a solid knowledge of workplace Infection Control and Safety Precautions.**

WORKPLACE INFECTION CONTROL PRECAUTIONS

Test takers need to be familiar and follow all workplace infection control precautions. Here are some examples of the expectations of the test as well as an everyday business to familiarize a test taker with some of the industries infection control standards.

- ✓ Cleaning hands before starting a service. Knowing when hands become contaminated and keeping them clean as to not infect a client.
- ✓ Keeping the supply kit from becoming contaminated, such as: returning items to the kit, leaving a kit open or otherwise contaminating a kit. The supply kit represents a clean and disinfected storage in an Esthetician’s workstation and should be treated as such.
- ✓ Knowledge of single-use and multi-use items and how to dispose of them properly.
- ✓ Disinfecting workstation surfaces and keeping them from becoming contaminated. If a worksurface becomes unhealthy a test taker has the knowledge to know when they would require the station to be cleaned and disinfected.

- ✓ Keeping clients from becoming contaminated by the esthetician.
- ✓ Keeping containers being used from contamination.
- ✓ Making sure our tools are clean and disinfected.
- ✓ If body fluid become present during a service (i.e., blood, vomit, feces, etc.), how we deal with the situation without contaminating ourselves and others.

WORKPLACE SAFETY PRECAUTIONS

Test takers also need to be familiar and follow all workplace safety precautions. Here are some examples of the expectations of the test as well as an everyday business to familiarize a test taker with some of the industry safety standards.

- ✓ Estheticians must know and have a working understanding of workplace safety regulations issued by federal and state regulatory entities.
- ✓ Cross-contamination of chemicals and products on the workstation.
- ✓ Chemical mixing procedures, storage of chemicals and SDS sheets.
- ✓ Keeping the workstation safe from injury, cleaning up spills and picking up dropped items. Reducing a slip and fall or tripping incidents.
