NON-RESIDENTS OF OHIO

Ohio residency is not a requirement to obtain an Ohio appraiser certificate or license. However, non-residents are required to file with their application a Consent to Service of Process form, which permits notice of legal action to be served upon them through the Ohio Secretary of State.

RECIPROCITY

If you are currently certified or licensed in a state with which Ohio has reciprocity, you may qualify for a waiver of the Ohio appraiser examination. The appraiser section of the Division should be contacted to determine the states with whom Ohio

has reciprocity and the procedure to follow to obtain a reciprocal Ohio real estate appraiser certificate or license.

TEMPORARY PRACTICE FOR OUT-OF-STATE APPLICANTS ONLY

If you are currently licensed or certified in another state, you may qualify for a temporary certificate or license that allows you to perform one assignment for each temporary certificate or license issued. Only two temporary practice certificates or licenses will be issued during one calendar year. The completed application and correct fee are required before any temporary certificate or license will be issued. No examination is required.

RENEWAL

All state-certified and state-licensed appraisers and registered assistants are required to file an annual renewal application with the Ohio Division of Real Estate to renew their certificate, license or registration. Approximately sixty (60) days prior to your renewal deadline, you will receive an Appraiser Renewal application from the Division of Real Estate advising you of the required renewal fees, renewal expiration date and continuing education deadline. The late filing penalty fee for any renewal form submitted after the expiration date shall be an amount equal to one half of the annual renewal fee and the renewal form must be filed within three months of the current expiration date. A certificate, license or registration holder who fails to renew within the three-month late renewal period will expire.

APPLICATION FOR LICENSE/CERTIFICATION

1. Complete your pre-licensing education and experience requirements for the license or certification you are seeking.

CRIMINAL BACKGROUND CHECK

All applicants for registration, licensure, or certification are required to complete a criminal records check of **both state and national records**. This requirement also applies to an applicant who is “upgrading” their credential.

- An applicant must contact and arrange with a Webcheck® user (a business, government agency, or private entity that provides criminal record check services) approved by the Bureau of Criminal Identification and Investigation (BCI&I) to have fingerprints taken and submitted to BCI&I using the Webcheck® system. A list of Webcheck® users may be found on the web at: <http://www.webcheck.ag.state.oh.us>
- An applicant must have fingerprints taken by the Webcheck® user within ten (10) days of filing an application. Applicants should not have fingerprints taken before filing an application with the Division of Real Estate.
- Some Webcheck® users can only submit fingerprints for a *state* records check and cannot submit fingerprints for a *national* records check. An applicant must submit both state and national records check results to the Division. Therefore, the Division recommends that when an applicant contacts a Webcheck® user, the applicant confirm the user is able to submit fingerprints for a state and national records check.
- An applicant must instruct the Webcheck® user to have BCI&I send the results (state and national criminal records check) to the Division at:
 - **Division of Real Estate and Professional Licensing**
Attn: Appraisal Compliance Administrator
6606 Tussing Road
PO Box 4008
Reynoldsburg, OH 43068
- The applicant must pay all fees associated with the criminal records check to the Webcheck® user at the time the fingerprints are taken.
- The Division must receive the results within 30 (thirty) days of filing the application.
- Failure to timely comply with the criminal records check requirement may result in the denial of an application.
- Additional information on Webcheck® may be found at: Ohio <http://www.webcheck.ag.state.oh.us> or obtained from BCI&I at (740) 845-2113 or P.O. Box 365 London, Ohio 43140.

TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers.

TEST QUESTION SCREEN

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

EXAMINATION REVIEW

AQB will be consistently evaluating the examinations being administered to ensure that the examinations accurately measure competency in the required knowledge areas. While taking the examination, examinees will have the opportunity to provide comments on any questions. Comments may be entered by clicking the Comments link on the function bar of the test question screen.

These comments will be analyzed by AQB examination development staff. AQB does not respond to individuals regarding these comments. All substantive comments are reviewed. This is the only review of examination materials available to candidates.

SCORE REPORTING

In order to pass the examination, you must achieve a minimum scaled score of 75. You will receive your score report immediately following the completion of the examination.

Candidates passing the examination will receive ONLY a score indication of PASS. Passing numeric scores are not available. Candidates who do not pass will receive an individual score for each of the major sections in the examination outline. Candidates should use this information to assist them in studying for the re-examination.

Scaled scores can range from 0 to 110, with 75 and above representing passing. Scores are reported to candidates as scaled scores. The scaled scores are computed from raw scores. Raw scores, or percentage scores, are the actual number of questions answered correctly. Raw scores are mathematically converted to scaled scores to maintain a consistency in the meaning of scores, regardless of when the examination was taken. Examinations change over time. Each examination may vary in difficulty with one examination easier or more difficult than other examinations. However, when converting raw scores to scaled scores, it should not make a difference whether candidates take an easier or more difficult examination. With the mathematical adjustment, the scaled score accounts for differences by adjusting the scores up or down depending on the difficulty of examinations. When these adjustments are made, the effect is to produce an unbiased and constant passing standard that does not change from one examination to another. A scaled score is not a percentage score, but simply a transformation of a raw score to report comparable results when examinations vary in difficulty.

DUPLICATE SCORE REPORT

You may request a duplicate score report after your examination by emailing scorereport@psionline.com or by calling 800-733-9267.

TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION

The following suggestions will help you prepare for your examination.

- Planned preparation increases your likelihood of passing.
- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Read study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice. Underline or highlight key ideas that will help with a later review.

- Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

SAMPLE QUESTIONS

The following questions are offered as examples of the types of questions you will be asked during the course of the examination. The examples do not represent the full range of content or difficulty levels found in the actual examinations. They are intended to familiarize you with the types of questions you can expect to find in the examinations. The answer key is found at the end of the sample questions.

1. The subject property is a 10,000-sf office building encumbered by a full-service lease with a contract base rent of \$1.25 per square foot monthly. Stabilized vacancy/credit loss allowance for similar properties within the market area is 7% of PGI. The operating expense ratio for similar properties is 30% of EGI, plus reserves for replacement of \$0.15 per square foot. What is the projected net operating income?
 - A. \$93,000
 - B. \$94,500
 - C. \$96,150
 - D. \$97,650

2. The subject assignment is to appraise a vintage house built in 1880 using the cost approach. The house has metal stamped ceilings, lath, and plaster walls, which are items not easily available in today's construction. The estimated replacement cost using modern materials is \$120 per square foot. Contractors charge \$15 more per square foot to work on older houses. The estimated reproduction cost is \$185 per square foot. What is the estimated loss in utility?
 - A. \$15 per square foot
 - B. \$33 per square foot
 - C. \$65 per square foot
 - D. \$80 per square foot

3. The occupants of a dwelling have been granted a life estate by their daughter. What interest does the daughter hold in the property?
 - A. Life tenant
 - B. Remainder
 - C. Trustee
 - D. Trustor

4. A client requires the cost approach be completed for a warehouse located in an industrial park. There are no vacant land comparables in the market area. There are three sales of commercial buildings in the industrial park with similar lots that the appraiser has researched extensively. The appraiser found the following information:
- Sale 1 sold for \$1,750,000. The buyer allocated 20% of the value to the site and 80% to the value of the structure.
- Sale 2 sold for \$1,000,000. The buyer was not available for verification, but the seller was available. The seller had just built the structure after holding the lot for 10 years as an investment property. The seller paid \$100,000 for the lot and had earned 25% straight line annual return on his investment over the cost of the structure and its entrepreneurial profit.
- Sale 3 sold for \$3,500,000. The buyer estimated that 90% of what he paid was for the structure.
- What is the indicated value of the lot using the allocation approach?
- A. \$125,000
 - B. \$135,000
 - C. \$350,000
 - D. \$500,000
5. A homeowner purchased two adjacent lots in a tract subdivision 20 years ago and built a single-unit dwelling entirely on one lot, utilizing the second lot as a side yard. The homeowner has decided to build a smaller home on the vacant side lot and retain the existing home as a rental. What term applies to the second yard?
- A. Excess land
 - B. Surplus land
 - C. Underutilized site
 - D. Vacant site
6. While working on an appraisal of a residential property in a new home subdivision, the appraiser finds that the builders have a total of 100 home sites currently offered for sale. In measuring market demand, the appraiser notes that all of the builders combined are currently averaging two new sales contracts per month, and are expecting to sell 24 dwellings within the next year. What conclusion can be drawn with regard to the 100 available home sites and a market period of the next 12 months?
- A. The market is in a condition of supply and demand
 - B. The market is in a condition of balance
 - C. The market is in a condition of undersupply
 - D. The market is in a condition of oversupply

ANSWERS: 1 = C, 2 = C, 3 = B, 4 = C, 5 = A, 6 = D
