NAME OF EXAMINATION PERSONALIZED INSTRUCTIONS
PURPOSE

The California Supplemental Examination (CSE) Handbook is designed to provide a candidate with important information regarding examination procedures, processes, and content. The CSE is the final requirement for obtaining an architect license in California.

The California Architects Board strongly recommends that candidates thoroughly review the CSE HANDBOOK, the CSE Test Plan, and the recommended CSE Reference Materials (available at www.cab.ca.gov) to prepare for the examination. The CSE Handbook describes in detail what to expect upon arrival at the examination site. It also provides other recommendations on how to prepare for the examination, information on the format of the examination, the CSE Test Plan content, and information on receiving examination results.

OBJECTIVE OF THE CALIFORNIA ARCHITECTS BOARD

The Board is mandated to protect the public’s health, safety, and welfare. The CSE assesses whether candidates for licensure demonstrate minimum standards of competency necessary to meet the requirements of current architectural practice in California.

As in other states with unique needs and regulatory requirements, California requires a supplemental examination in addition to the Architect Registration Examination (ARE). The CSE ensures that candidates are able to demonstrate they have the necessary architectural knowledge and skills to respond to the unique conditions present in California.

The setting for architectural practice in California is distinct from that of other states in terms of the breadth, magnitude, and complexity of the individual circumstances that create its context. California’s large physical size, large and diverse population, varied landscape and climate, high seismicity, regulations and entitlements, and massive economy create an unusually demanding context for architectural practice. Additionally, the varying interplay of these conditions for specific projects gives rise to even more complicated settings for the conduct of architectural practice in the state.

Please use the CSE Handbook as a study guide, as well as a resource to understand the administrative procedures and processes for the CSE. Candidates, who have questions, may refer to the contact information available in this handbook.

EXAMINATIONS BY PSI

The Board, through the California Department of Consumer Affairs (DCA), contracts with PSI to administer the CSE. PSI provides examinations through a network of 17 computer examination sites in California and 22 additional nationwide sites.

All questions regarding the scheduling and administration of examinations should be directed to PSI.

PSI licensure/certification
3210 E. Tropicana Avenue

REASONABLE ACCOMMODATIONS AVAILABLE

All examination sites are physically accessible to individuals with disabilities. Scheduling services are also available via PSI Telecommunications Device for the Deaf (TDD) by calling (800) 735-2929.

The Board and PSI recognize their responsibilities under the Federal Americans with Disabilities Act and the California Fair Employment and Housing Act by providing testing accommodations or auxiliary aids or services for candidates who substantiate the need due to a physical or mental disability or qualified medical condition.

Accommodations will not be provided at the examination site unless prior approval by the Board has been granted. Reasonable, appropriate, and effective accommodations may be requested by submitting a Reasonable Accommodation Request form for CSE to the Board. This form is available at www.cab.ca.gov.

Requests for accommodation must be received a minimum of 90 days prior to the desired test date to allow for processing. Accommodations that fundamentally alter the measurement of the skills or knowledge the examination is intended to test will not be granted.

Do not schedule an examination with PSI until written notification has been received from the Board regarding a request for accommodation.

EXAMINATION SCHEDULING PROCEDURES

Once a candidate has established eligibility for the CSE by the Board, the candidate becomes responsible for contacting PSI to schedule an appointment to take the examination. A candidate may do so via the Internet at www.psiexams.com or over the telephone at (877) 392-6422.

Current policy allows one test attempt per application. If a candidate does not pass the examination, the candidate must reapply to the Board.
The PSI examination sites are open for testing during normal working hours of 8:00 a.m. to 5:00 p.m., Monday through Friday, and operating hours on Saturday, except for the following major holidays:

<table>

INTERNET SCHEDULING

A candidate may schedule an examination by completing the online Test Registration Form available at www.psiexams.com. Please note that PSI’s website works best with Internet Explorer; other Internet browsers are not supported at this time. Scheduling an examination may be made via the Internet 24 hours a day.

1. Complete the registration form online and submit to PSI via the Internet.
2. Upon completion of the online form, a candidate will be given the available dates for scheduling an examination.
3. A candidate will need to choose a date in order to complete their registration.
4. Upon successful registration, a candidate will receive a traceable confirmation number.

TELEPHONE SCHEDULING

Call PSI registrars at (877) 392-6422, Monday through Friday between 4:30 a.m. and 7:00 p.m. and Saturday, between 8:00 a.m. and 2:00 p.m., Pacific Time, to schedule an examination appointment. Telecommunications Device for the Deaf (TDD) is available at (800) 735-2929.

CANCELING AN EXAMINATION APPOINTMENT

A candidate may cancel and reschedule an examination appointment without forfeiting the fee IF A CANCELLATION NOTICE IS RECEIVED TWO (2) DAYS PRIOR TO THE SCHEDULED EXAMINATION DATE. For example, for a 9:00 a.m. Monday appointment, the cancellation notice would need to be received before 9:00 a.m. on the previous Saturday. A candidate may call PSI at (877) 392-6422 or use the PSI Website.

Note: A voicemail or email message is not an acceptable form of cancellation. Please use the PSI website or call PSI and speak directly to a Customer Service Representative.

MISSED APPOINTMENT OR LATE CANCELLATION

A candidate who misses their appointment will not be able to take the examination as scheduled. Further, the examination fee is forfeited if a candidate:

- Does not cancel their appointment two (2) days before the scheduled examination date;
- Does not appear for their examination appointment;
- Arrives after their examination start time; or
- Does not present proper identification to the proctor at the exam site (see page 8).

REEXAMINATION

A candidate who fails the CSE may not retake the examination for at least 90 days from the day they last took an examination. See Examination Results section for additional information regarding reexamination.

EXAMINATION SITE CLOSING FOR AN EMERGENCY

In the event that severe weather or another emergency forces the closure of an examination site on a scheduled examination date, the examination will be rescheduled. PSI personnel will attempt to contact candidates in this situation. However, candidates may check the status of an examination appointment by calling (877) 392-6422. Every effort will be made to reschedule a candidate’s examination at a convenient time as soon as possible. Candidates will not be penalized. They will be rescheduled at no additional charge.

CONFIRMATION OF EXAMINATION APPOINTMENT

The Board recommends that candidates confirm their examination appointment with PSI prior to traveling to an examination site. An examination appointment can be confirmed by calling (877) 392-6422.
CALIFORNIA EXAMINATION SITE LOCATIONS

The CSE is administered at the following PSI examination sites in California:

ANAHEIM
2301 W LINCOLN AVE, SUITE 252

GOING SOUTH: OFF I5, TAKE EXIT 286 (ELLINGENS/BOONES FERRY RD). TURN LEFT AND CROSS OVER THE FREEWAY. TURN LEFT AT 2ND SIGNAL LIGHT (PARKWAY AVE.) TURN INTO PARKWAY PLAZA PARKING LOT (ACROSS THE STREET FROM SHRINER'S). WE ARE LOCATED IN THE MAIN ENTRANCE FIRST DOOR ON THE RIGHT.

WOODBURY
6053 HUDSON RD, SUITE 210
WOODBURY, MN 55125
FROM I-94 GO SOUTH ON CENTURY TO THE FIRST LEFT (WHICH IS THE FRONTAGE ROAD ENTRANCE TO THE COUNTRY INN). ENTER THE OFFICE COMPLEX THROUGH THE SINCLAIR GAS STATION AND ALONG BACK OF THE INN. 6053 IS THE BUILDING DIRECTLY AHEAD. THE ENTRANCE ON THAT (WEST) SIDE IS ACTUALLY ON THE 2ND FLOOR. SUITE 210 IS DOWN THE CORRIDOR TO THE RIGHT. PLEASE USE THE WEST ENTRANCE ON SATURDAYS.

PREPARING FOR THE EXAMINATION

To prepare for the CSE, the Board recommends the following:

- Thoroughly Read the CSE Handbook. In addition to the CSE Test Plan, the CSE Handbook contains valuable information on: examination procedures, administrative processes, etc. Candidates should take time to read all available material and contact the Board well in advance of the examination appointment if they have questions.

- Study the CSE Test Plan. The CSE Test Plan is made up of four areas of task and knowledge statements and was used by the Board to develop the examination questions. No questions will be asked that are not based upon the material found in the CSE Test Plan. Candidates may find it helpful to compare their experience and knowledge with each area of the CSE Test Plan.

- Use the CSE Reference Materials. The Board provides a list of reference material on its website at www.cab.ca.gov. It is strongly recommended that candidates thoroughly review these materials and check the list regularly, as it is updated when necessary. The list details the resources with which to be familiar and knowledgeable, and how they may be obtained. Some of the materials are available at a nominal cost, and others are free. Candidates should check with the source agency of each publication for availability and current pricing.

- Engage in Self-Directed Study. For areas of the CSE Test Plan for which candidates may have limited knowledge or experience, they should engage in self-directed study (e.g., Architectural Experience Program training areas, continuing education, The American Institute of Architects Handbook of Professional Practice, etc.).

- Examination Seminars or Study Guides. The CSE Handbook is the only official examination preparation publication for the CSE. The Board does not contribute to nor endorse any examination seminars or study guides for the CSE. The Board’s Subject Matter Experts (SMEs) may not contribute to or participate in any examination seminars or study guides. In addition, individuals and organizations that offer examination seminars or study guides are not given any information beyond what is available or referenced on the Board’s website or in the CSE Handbook.

Per Civil Code section 1798.61(b), individuals and organizations that provide educational information regarding examinations are provided with a list of the Board’s candidates’ names and addresses upon request (unless a candidate indicates on the examination application that he or she wishes to not have this information shared).

REPORTING TO THE EXAMINATION SITE

On the day of the examination, candidates must arrive at least 30 minutes prior to a scheduled appointment time. This allows time for check-in and identification verification and provides time for the candidates to familiarize themselves with the examination process. Candidates who arrive late may not be admitted to the examination site, and they may forfeit the examination registration fee. Even though candidates will be thumb printed, they are still required to comply with any identification requirements established by the Board.

REQUIRED IDENTIFICATION AT THE EXAMINATION SITE

A candidate must provide one of the following valid and current forms of government issued identification with photograph in order to test:

- Driver’s license issued by a state, territory, or province of the U.S. or Canada
- Identification card issued by a state, territory, or province of the U.S. or Canada
- Passport issued by the U.S. or Canada
- U.S. Government-issued Passport Card
- U.S. military identification card

All identification photographs must be recognizable as the person to whom the identification card was issued. Also, the name on a candidate’s identification card must match the
name on their application submitted to the Board. If a candidate has recently changed their name with the Board, he or she may want to contact PSI to verify that PSI has the correct name on file.

If a candidate cannot provide the required identification, the candidate must call (877) 392-6422 at least three (3) weeks prior to their scheduled appointment to arrange a way to meet this security requirement. Failure to provide the required identification at the time of the examination without notifying PSI is considered a missed appointment, and a candidate will not be able to take the examination.

**CALIFORNIA LAW SECURITY PROCEDURES**

California Business and Professions Code section 123 states it is a misdemeanor for any person to engage in any conduct which subverts or attempts to subvert any licensing examination or the administration of an examination, including, but not limited to:

- Conduct which violates the security of the examination materials;
- Removing from the examination room any examination materials without authorization;
- The unauthorized reproduction by any means of any portion of the actual licensing examination;
- Aiding by any means the unauthorized reproduction of any portion of the actual licensing examination;
- Paying or using professional or paid examination-takers for the purpose of reconstructing any portion of the licensing examination;
- Obtaining examination questions or other examination material, except by specific authorization either before, during, or after an examination;
- Using or purporting to use any examination questions or materials which were improperly removed or taken from any examination for the purpose of instructing or preparing any applicant for examination;
- Selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered licensing examination;
- Communicating with any other examinee during the administration of a licensing examination;
- Copying answers from another examinee or permitting one’s answers to be copied by another examinee;
- Having in one’s possession during the administration of the licensing examination any books, equipment, notes, written or printed materials, or data of any kind, other than the examination materials distributed, or otherwise authorized to be in one’s possession during the examination; or
- Impersonating any examinee or having an impersonator take the licensing examination on one’s behalf.

Nothing in section 123 precludes prosecution under authority provided for in any other provision of law. In addition to any other penalties, a person found guilty of violating section 123, is liable for the actual damages sustained by the agency administering the examination not to exceed $10,000 and the costs of litigation.

Additionally, section 496 states:

“A board may deny, suspend, revoke, or otherwise restrict a license on the ground that an applicant or licensee has violated Section 123 pertaining to subversion of licensing examinations.”

**PSI SECURITY PROCEDURES**

No guests, visitors, or family members are allowed in the testing or reception areas. Failure to follow these procedures may result in disqualification of the candidate’s examination.

Note: Each candidate will be provided with notepaper and a pencil at the test site so that notes can be taken during the examination. This notepaper will be retrieved by the proctor after the examination.

**IMPORTANT INFORMATION ABOUT TAKING AN EXAMINATION**

1. All candidates will have their thumbprint taken during examination check-in. The thumb print must be matched after candidates return from a restroom break and any time the candidate leaves and returns to the test site after check-in.

2. The temperature in the testing room is maintained at a moderate level. Candidates are advised to layer clothing. Acceptable layered clothing includes lightweight shirts, sweaters, and pullovers without pockets or hoods. These items must be worn upon check-in, while you wait to enter the testing room, and during your initial seating for the examination. If the layered item is removed during the examination, you will be required to store it in the lobby while time continues to count down on your examination. Outerwear (coats, heavy jackets, vests, shawls, scarves, etc.) is not allowed in the testing rooms.

3. There are timing mechanisms available in the testing room and on the computer console to help candidates keep track of time during the test administration. Candidates are not permitted to bring watches or other timekeeping devices into the testing rooms.

4. Only one candidate will be allowed to take a restroom break at a time. Candidates are required to sign out when leaving and returning to the testing room. If a candidate’s restroom break takes longer than 5 (five) minutes, a proctor will check on the candidate and will notify the applicable regulatory entity of the occurrence. The regulatory entity will investigate and take appropriate action.

5. The following is a non-exhaustive list of personal items that are not permitted in the testing rooms:

<table>
<thead>
<tr>
<th>Purses</th>
<th>Briefcases/daypacks/luggage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cellular phones</td>
<td>Pagers</td>
</tr>
<tr>
<td>Drinks (including water)</td>
<td>Food/candy/snacks/gum</td>
</tr>
<tr>
<td>Good luck items</td>
<td>Luggage</td>
</tr>
<tr>
<td>Calculators</td>
<td>Reading materials</td>
</tr>
<tr>
<td>Textbooks</td>
<td>Notes</td>
</tr>
<tr>
<td>Any recording device</td>
<td>Smart devices</td>
</tr>
<tr>

</tr>
<tr>
<td>Sunglasses**</td>
</tr>
<tr>
<td>Bulky, large or noisy jewelry***</td>
</tr>
<tr>
<td>Prescription drugs****</td>
</tr>
</tbody>
</table>

*Headwear worn for religious purposes is subject to inspection.
**Prescription and non-prescription eyeglasses may not be worn for the photo. Eyeglasses subject to inspection.
***Jewelry that is worn for the photo. Eyeglasses subject to inspection.
****Drugs that are medically necessary during the pendency of the examination may be brought into the examination site, in a container bearing a proper prescription label with the name of the candidate and of the drug; any such medication is subject to examination by a proctor upon check-in.

Examination proctors will have considerable discretion to refuse permission of clothing and/or items that compromise the integrity or security of the examination.

During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates must return these items to their vehicle or other place of safekeeping. Neither PSI nor the Department of Consumer Affairs will be responsible for the items. Any candidate possessing prohibited items in the testing room will have his or her examination results invalidated, and PSI will notify the appropriate regulatory entity of the occurrence.

6. Shoes must be worn at all times and feet are not permitted on the chairs. Feet must remain on the floor during examinations.

7. Copying any portion of the examination content by any means, or communicating examination content for the purpose of aiding its unauthorized reproduction, whether before, during, or after the examination, is a violation of PSI security policy and existing law. Either one may result in the disqualification or invalidation of examination results, the denial of your license, and may result in criminal prosecution.

8. If a candidate is asked by a proctor to step into the lobby during your examination, the proctor will suspend the candidate’s examination, so all remaining test time will be retained.

Only candidates, and those individuals with prior regulatory entity approval, are allowed to be present in the testing sites.

If candidates require that an exception be made to ANY of the abovementioned security procedures, candidates must contact their regulatory entity PRIOR to the date of their examination. The regulatory entity must provide the exception to PSI. NO EXCEPTIONS WILL BE MADE ON THE DAY OF THE EXAMINATION.

TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers.

TEST QUESTION SCREEN

The “function bar” at the top of the sample question provides mouse-click access to the features available while taking the examination.

EXAMINATION ITEMS

The CSE consists of 100 scorable multiple-choice items. The examination may also contain an additional number of items for the purpose of pretesting (non-scorable items). Pretesting allows performance data to be gathered and evaluated before the items are scorable in a future examination. These pretest items, distributed throughout the examination, are not identified or used in calculating the examination score.

All of the items in the CSE have been written and reviewed by multiple panels of California-licensed architects. The items are...
based on the knowledge and ability statements contained in the CSE Test Plan and are written at a level to assess minimum standards of competency necessary for practice in California. Items are supported by reference material and have been pretested to ensure statistical performance standards are met.

There is only one correct answer for each item. The “incorrect” answers are typically common errors and misconceptions, true but not relevant statements, or incorrect statements. There are no “trick” questions in the examination. Scores are based on the number of correct answers. It is to the candidate’s advantage to answer every question.

The CSE consists of individually timed sections that may include general multiple-choice items and project scenario related items pertaining to the content within the CSE Test Plan and applicable knowledge and ability statements. Each section of the exam will have a designated time limit displayed on the computer monitor. If a section is completed before the designated time has expired, the remaining time may not be carried over to another section. Once a section is complete, a candidate must proceed forward to the next section of the examination and may not go back or review answers from a prior completed section. Candidates will have approximately 3.5 hours to take this examination.

The project scenario questions pertain to hypothetical project(s) and related documents. The exam proctor will provide the candidate with a handout at check-in, which may include: a) written information, such as the project program, site description, and architect and client profiles; b) graphics, such as a site plan, floor plan, elevations, sections, and/or details; and c) other project-related information, such as a letter from the client, a transmittal from the contractor, a memo from the planning department, etc. for each project. The project name(s) on the cover of the handout should match the project name on the computer screen for the Project Scenario items. The handout must be returned to the proctor upon completion of the project scenario items of the exam.

A candidate who needs to take a restroom break during the examination will not receive additional time to complete the examination.

EXAMINATION RESULTS

Examination results will be given to a candidate at the testing site after completing the examination.

Candidates who pass the CSE are also provided with an Application for Licensure. Candidates who are unsuccessful receive a score report and a CSE application so they can reapply. If a candidate does not receive their results after completing the examination, they should immediately contact the Board’s office.

Candidates must submit a new application and payment to the Board for each CSE attempt. A candidate cannot schedule or retake the examination for at least 90 days from the date they last took the examination. Applications may be submitted during the wait-period. However, authorization to test will not be granted until it has been concluded.

A candidate who was unsuccessful with the CSE and alleges they were significantly disadvantaged due to a significant procedural error or adverse environmental conditions during the examination may request a review of their administration. A request for review and all supporting documentation must be submitted in writing to the Board within 30 days from the date on which the examination result was released to the candidate. The Board may take such action as it deems appropriate; however, in no instance will the review result in the reversal of a score. Due to exam security, candidates will not be permitted to see their exams.

EXAMINATION EVALUATION

PSI, in cooperation with the Board, will be continually evaluating the examinations being administered to ensure that they accurately measure competency in the required knowledge areas. Comments may be entered on the computer keyboard during the examination. Candidate comments regarding the questions and the examinations are welcomed. Comments will be analyzed by PSI examination development staff. Although PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. If a discrepancy is found during the comment review, PSI and the Board may reevaluate candidates’ results and adjust them accordingly.

AFTER PASSING THE EXAMINATION

Candidates are eligible to apply for licensure as an architect in California after passing the CSE. To apply, candidates must submit an Application for Licensure and the required fee to the Board. An Application for Licensure is only provided to a candidate when he or she passes the CSE. Allow 30 days for processing of an Application for Licensure and fee and approximately six to eight weeks for issuance of the license.

DEVELOPMENT OF CSE TEST PLAN

The CSE Test Plan specifies the content on the exam. The process to develop the plan must follow a specific methodology and comply with psychometric and legal standards. To commence development, OEPES conducted an “occupational analysis” (OA) of practice in California. The purpose of the OA is to define architectural practice in terms of actual job tasks new licensees must be able to safely and competently perform. The results of the OA serve as the basis for determining the tasks and knowledge that comprise practice in California.

OEPES began the OA by conducting stakeholder and architect focus groups. The purpose of the focus groups was to identify the qualities stakeholders determined that an architect should possess and the areas of practice that could be improved. The focus groups included: contractors, engineering professionals, landscape architects, and building officials. An additional focus group of architects reviewed the results and identified changes and trends in practice anticipated over the next five to eight years.

OEPES also conducted practitioner interviews. The purpose was to identify the tasks performed by newly licensed architects,
and the knowledge required to perform those tasks in a safe and competent manner. The interviews were also used to follow up on topics arising from the focus groups and to inform the development of a preliminary list of task and knowledge statements.

Following the stakeholder focus groups and practitioner interviews, two additional focus groups were conducted by OPES. The purpose of these sessions was to develop and refine the task and knowledge statements. As a result of the practitioners correlation of task and knowledge statements, new statements were created while others were eliminated.

The Board sent invitations to approximately 9,000 architects requesting completion of the OA questionnaire. The final sample size was 17%.

OPES performed data analyses on the task and knowledge rating responses and combined the task ratings to derive an overall criticality index for each task statement. The mean importance rating was used as the criticality index for each knowledge statement.

After the data was analyzed, two additional focus groups were conducted with practitioners. The purpose of these focus groups was to evaluate the criticality indices and determine whether any task or knowledge statements should be eliminated. The practitioners also established the linkage between job tasks and knowledge statements, organized the task and knowledge statements into content areas, and defined those areas. In addition, the practitioners evaluated and confirmed the content area weights.

The resulting description of practice for California architects is structured into six content areas. The description of practice specifies the job tasks and knowledge critical to safe and effective practice at the time of licensure and forms the basis for the content included in the CSE Test Plan.

### EXAMINATION DEVELOPMENT

The CSE is developed and maintained by OPES, a division of the DCA. OPES staff consists of test validation and development specialists trained to develop and analyze occupational licensing examinations.

Architects who participate in examination development and review workshops are referred to as Subject Matter Experts (SMEs). SMEs write and review multiple-choice items for the examination. SMEs are trained by OPES staff in established examination development processes and measurement methodologies. The cooperative efforts among these members of the architectural profession, the OPES and the Board are necessary to achieve both the measurement and content standards for examination construction.

### ESTABLISHING THE PASSING STANDARDS

The CSE measures knowledge and skills required for architectural practice in California, and represents a standard of performance that architect SMEs agree is the minimum acceptable level for licensing in the profession.

To establish pass/fail standards for the CSE, a criterion-referenced passing score methodology is used. The intent of this methodology is to differentiate between a qualified and unqualified licensure candidate. The passing score is based on minimum competence criterion that are defined in terms of the actual behaviors that qualified architects would perform if they possessed the knowledge necessary to perform job activities.

During a criterion-referenced passing score procedure, a panel of architect SMEs also consider other factors that would contribute to minimum acceptable competence, such as: prerequisite qualifications (e.g., education, training and experience), the difficulty of the issues addressed in each multiple-choice item, and public health and safety issues. By adopting a criterion-referenced passing score, the Board applies the same minimum competence standards to all licensure candidates.

### CSE TEST PLAN CONTENT

The new examination outline for the CSE is structured into four content areas weighted by criticality relative to the other content areas. The CSE examination outline specifies the job tasks and knowledge specific to California practice that a California-licensed architect is expected to have mastered at the time of licensure. An overview of the final test plan is provided below.

#### Categories and Subcategories

<table>
<thead>
<tr>
<th>Categories and Subcategories</th>
<th>Weights*</th>
</tr>
</thead>
<tbody>
<tr>
<td>I. General Practice</td>
<td>14%</td>
</tr>
<tr>
<td>II. Programming/Design</td>
<td>36%</td>
</tr>
<tr>
<td>III. Development/Documentation</td>
<td>30%</td>
</tr>
<tr>
<td>IV. Bidding/Construction</td>
<td>20%</td>
</tr>
<tr>
<td></td>
<td>100%</td>
</tr>
</tbody>
</table>

*The percentage of exam content listed above is approximate.

Each category includes a definition and a list of knowledge or ability statements. The questions asked from a category will cover a sample of the knowledge or ability statements in that category. Therefore, while not every statement will be addressed by every form of the examination, candidates should be prepared to respond to questions dealing with any of the CSE Test Plan Knowledge and Ability Statements. The candidate’s knowledge will be measured in the context of tasks architects perform.
I. **General Practice (14%)**

This area assesses the candidate’s knowledge related to core areas of practice applicable across types of projects, construction contract arrangements, and project delivery methods.

<table>
<thead>
<tr>
<th>Task Statements</th>
<th>Knowledge Statements</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Advertise and solicit services in compliance with professional and legal requirements.</td>
<td>1. Knowledge of the provisions of the Architect’s Practice Act and CA Code of Regulations related to architect’s business and professional requirements (e.g., contracts, architectural corporations, responsible control, architect’s stamp).</td>
</tr>
<tr>
<td>2. Evaluate the project’s opportunities and constraints for alignment with client goals and requirements.</td>
<td>2. Knowledge of different project delivery methods and the architect’s and project team’s corresponding roles and responsibilities (e.g., to client, as part of team).</td>
</tr>
<tr>
<td>3. Assess preliminary project requirements including budget and schedule relative to own firm’s/organization’s business goals, resources, and expertise.</td>
<td>4. Knowledge of types of contracts and their application to the scope of work and the project’s service requirements (client, consultant, etc.).</td>
</tr>
<tr>
<td>4. Evaluate potential contractual risks and determine strategies to manage them.</td>
<td>5. Knowledge of methods for limiting professional liability (e.g., contractual allocation of risk, standard of care, client and project selection).</td>

### Task Statements | Knowledge Statements
---|---
41. Conduct constructability review of Design Development documents. | design compliance with State regulatory requirements (e.g., Essential Services Building Seismic Safety Act, Field Act, Hospital Facilities Seismic Safety Act) related to design and construction of hospitals, schools, fire/police stations, etc.
42. Coordinate the preparation of the construction documents (e.g., architectural, structural, mechanical, civil, electrical, specs) and resolve potential conflicts or errors. | 51. Knowledge of methods and procedures for demonstrating design compliance with California Building Standards Code (CBSC).
43. Manage distribution and review of documents during the construction document and permit phases. | 52. Knowledge of methods and procedures for demonstrating design compliance with local regulations: zoning, planning, general plan, CBSC modifications, etc.
44. Prepare construction documents that meet program requirements and project goals, and present to client for approval. | 53. Knowledge of methods and procedures for demonstrating design compliance with federal laws and authorities: ADA, Army Corps of Engineers, FAA, etc.
45. Prepare construction documents and verify conformance with the conditions of prior agency approvals and applicable codes and regulations. | 54. Knowledge of methods and procedures for demonstrating design compliance with National Standards: NFPA, ASTM, etc.
46. Perform a detailed review of construction documents for constructability and incorporate changes into final documents. | 55. Knowledge of methods for performing a QA/QC review of construction docs including constructability, code compliance, etc.
47. Manage the submittal of construction documents to regulatory agencies through initial submittal, coordinating responses, and obtaining approvals. | 56. Knowledge of methods and procedures for managing the distribution and review of documents during the construction document and permit phases.
48. Assist client in the bidding process (e.g., distribute documents, conduct pre-bid meetings, prepare addenda). | 59. Knowledge of contents of contract documents (e.g., construction drawings, specifications, project manual) required for agency approval, bidding, and construction.
50. Assist client in selecting contractors and negotiating construction contracts. | 61. Knowledge of methods for documenting the anchoring of nonstructural elements as defined by the California Building Code (e.g., fixtures and equipment items, nonbearing partitions, suspended ceilings).
51. Prepare bid documents appropriate to the selected delivery method. | 62. Knowledge of processes and procedures for working with regulatory agencies having jurisdiction over the project to obtain final approvals (local, regional, State, federal).
52. Manage the initiation/processing of documents to record construction changes (e.g., Construction Change Directives, Architect’s Supplemental Instructions, Change Orders). | 63. Knowledge of interrelationships and responsibilities between regulatory agencies and their impact on the approval process (e.g., sequence of approvals, hierarchy of jurisdictions).
53. Participate in pre-construction and pre-installation meetings with contractor as required by the contract documents. | 64. Knowledge of the architect’s role in resolving conflicts between agencies regarding conflicting codes, regulations, and standards.
54. Monitor project construction costs and schedule (e.g., review and certify contractor applications for payment, verify lien releases). | 66. Knowledge of architect’s role and responsibilities related to construction bidding and negotiation processes.
55. Knowledge of architect’s role and responsibilities related to construction bidding and negotiation processes.
56. Knowledge of the provisions of the California Public Contract Code related to the bidding and contracting requirements for publicly funded projects.
57. Knowledge of California laws related to design professional and contractor liens and their implications for the architect’s and client’s responsibilities.
58. Knowledge of the interrelationships and responsibilities between the owner, architect, and contractor during construction.
59. Knowledge of methods for resolving conflicts that occur during construction (e.g., mediation, arbitration, litigation).
60. Knowledge of procedures for determining general conformance of construction with contract documents.

### IV. Bidding/Construction (20%)

This area assesses the candidate’s knowledge related to California regulations associated with project bidding, construction, and post-construction activities.

CALIFORNIA ARCHITECTS BOARD
NOTICE OF CSE ELIGIBILITY

The CSE Handbook provides important information regarding CSE procedures, processes, and content. To schedule an examination, please refer to the instructions in this handbook.

Upon passing the CSE, a candidate is eligible to apply for an architect license in California. Information about applying for a license is included in this handbook.
