EXAMINATIONS BY PSI

This Candidate Information Bulletin provides you with information about the examination and application process for becoming licensed as a Class A and Class B Contractor in the Commonwealth of Virginia. To be licensed, the Designated Employee must pass an examination to confirm that you have attained at least a minimum level of knowledge regarding the principles, practices, statutes and regulations. The Department of Professional and Occupational Regulation (Department) has contracted with PSI to conduct its examination program. PSI provides examinations through a network of computer and paper-and-pencil examination centers in Virginia. PSI works closely with the Department and its Examination Review Committee to be certain that examinations meet local, national, and international requirements in basic principles and examination development standards.

After passing the necessary examinations, you may apply to the Virginia Department of Professional and Occupational Regulation for a license. Once the Department has verified that you have met all of the requirements, the Department will issue the appropriate license. Questions concerning the licensing requirements should be addressed to the Board for Contractors licensing staff at (804) 367-8511.

The following is the combination of examinations offered for the Designated Employee by PSI in order to be licensed as a Contractor in the Commonwealth of Virginia (these examinations are not required for a Class C license). For more information on the Class C license, *please see the VA Contractor Specialty Exams for Class A, B, and C* Candidate Information Bulletin.

EXAMINATION CONTENT OUTLINES

If a test question answer could differ because of conflicting information in test reference sources, a legal requirement such as a code, law or regulation overrides any other reference. The Examination Content Outlines have been approved by the Virginia Department of Professional and Occupational Regulation. These outlines reflect the minimum knowledge required by Contractor professionals to perform their duties to the public in a competent and responsible manner. TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial to the computer and keyboard is provided on screen. The time you spend on this tutorial (up to 15 minutes) does NOT count as part of your examination time. Sample questions are included as part of the tutorial so that you may practice using the keys, answering questions, and reviewing your answers.

TEST QUESTION SCREEN

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the bottom of the screen and updated as you record your answers.

EXAMINATION

A sample question display follows. During the examination, you would press 1, 2, 3, or 4 to select your answer or press "MARK" to mark it for later review. You would then press ENTER to record your answer and move on to the next question. You can change your answer as often as you like before pressing ENTER.

The screenshot shows a web-based test interface. At the top, there is a navigation bar with icons for 'Mark', 'Comments', 'Goto', 'Help', and 'End'. Below this is a status bar displaying 'Question: 3 of 40', 'Answered: 2', 'Unanswered: 1', 'Marked: 0', 'View: All', and 'Time Left(Min): 359'. The main content area contains question 3: 'What do the stars on the United States of America's flag represent?'. Below the question is a text input field and a prompt '(Choose from the following options)'. There are four radio button options: '1. Presidents', '2. Colonies', '3. States', and '4. Wars'. At the bottom of the question area, there are '<< Back' and 'Next >>' buttons.

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

EXPERIMENTAL ITEMS

In addition to the number of examination items specified in the "Examination Content Outlines", a small number (5 to 10) of "experimental" questions may be administered to candidates during the examinations. These questions will not be scored and the time taken to answer them will not count against examination time. The administration of such unscored, experimental questions is an essential step in developing future licensing examinations.

EXAMINATION REVIEW

PSI, in cooperation with the Department of Professional and Occupational Regulation, will be consistently evaluating the evaluation being administered to ensure that the examinations accurately measure competency in the required knowledge areas. Comments may be entered by clicking the Comments link on the function bar of the test question screen.

Your comments regarding the questions and the examinations are welcomed. Comments will be analyzed by PSI examination development staff. While PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. If an error affecting examination scores is discovered as a result, which occurs very rarely, PSI and the department may re-evaluate candidates' results and adjust them accordingly. **This is the only review of the examination available to candidates.**

SCORE REPORTING

In order to pass the examination, you must achieve the minimum score shown on each part of the examination

	Number Correct
Virginia Portion (Rules and Regulation)	18
General Portion	35
Advanced Portion	17

Board policy dictates that examination score results are valid for 1 year. If you do not pass all necessary portions of your examination within one year of the initial examination, you will have to retake the entire examination.

IMPORTANT LICENSE INFORMATION:

Class A examination candidates approaching the one year retention of scores deadline who have passed the General Portion and the Virginia Portion, but not the Advanced Portion, may choose to apply for the Class B license and advise PSI to forward their scores to the Board. Those candidates may then continue to apply for the Advanced Portion in order to upgrade the license to Class A.

If you take the examination by computer, your score will be given to you immediately following completion of the examination. If you take the paper-and-pencil examination, your result will be mailed to you from PSI Headquarters. Examination results are confidential and will be reported only to you and the Virginia Department of Professional and Occupational Regulation.

The following summary describes the score reporting process:

- **On screen** - Your result will appear immediately on the computer screen. This will happen automatically at the end of the time allowed for the examination; if you are using review features, you will be able to obtain your result immediately when you indicate that you have finished and would like to see your results.
 - ✎ If you **pass**, you will immediately receive a successful notification on the screen.
 - ✎ If you **do not pass**, you will immediately receive an unsuccessful notification on the screen along with a diagnostic report indicating your strengths and weaknesses by examination type. Registration forms for submittal to PSI to retake the examination will be available at the examination center.
- **On Paper** - An official result report will be printed at the examination center. If you applied for the Class A examination and decide to change to a Class B, you must advise PSI in order for your examination scores to be sent to the Department.

DUPLICATE SCORE REPORTS

You may request a duplicate score report after your examination by emailing scorereport@psionline.com or by calling 800-733-9267.
