### PSI NATIONAL TESTING - GENERAL INFORMATION

This Test Taker Guide (GTT) provides test takers with information about the PSI National Tests and application process for taking a cosmetology test with the Michigan Board of Cosmetology.

The Michigan Department of Licensing and Regulatory Affairs (referred to as the Department) has contracted with PSI Services LLC (PSI) to conduct the PSI National Barber/Cosmetology Testing Program. PSI works closely with the Department to make certain that these examinations meet the State's as well as nationally established technical and professional standards for test development and administration. PSI provides these tests through a network of computer and practical testing centers in Michigan.

### TEST ELIGIBILITY

Before applying to PSI to take your licensing examination(s) you must first access the State of Michigan's MyLicense website located at [www.michigan.gov/miplus](http://www.michigan.gov/miplus), and apply for licensure. Only the State of Michigan may determine your eligibility for a license.

### APPLICATION TO TEST

Test takers are required to complete the Examination Registration Form on page 24 of this test taker guide. The form must be completed with ALL information requested. Illegible or incomplete applications will be returned to the test taker for correction and will cause a delay in scheduling. Once completed please email the application to: [MI.ApplicationProcessor@psionline.com](mailto:MI.ApplicationProcessor@psionline.com)

**Please note: For test takers submitting their initial registration, test takers are required include all documents with the Test Registration Form. Allow up to two (2) weeks processing time for the initial application. Please understand any missing documents will cause delays in the approval process.**

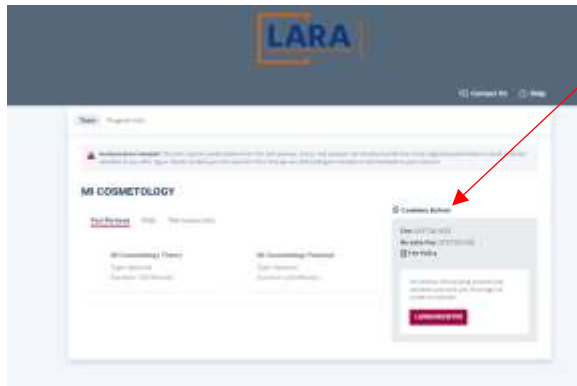

### NAME CHANGE INSTRUCTIONS

If a test taker name differs on any paperwork, they will need to provide documentation of legal name changes. This may require marriage certificates, or other legal documents, additional documentation may be required if the name has changed multiple times.

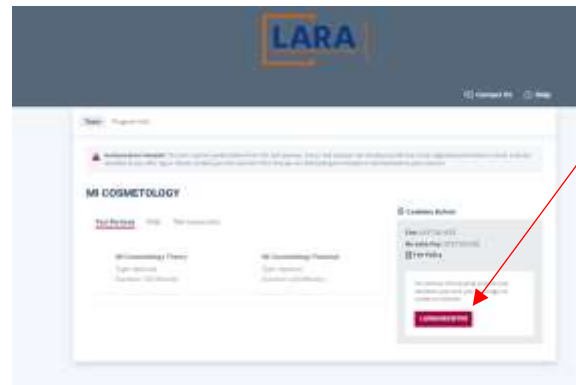

Once testing choices are made, test takers will need to create or sign into their PSI account, pay the test fees, and schedule their online test or test location, date, and time. The Candidate bulletin (CIB) or “Test Taker Guide (TTG)” is also found and downloaded from this page.

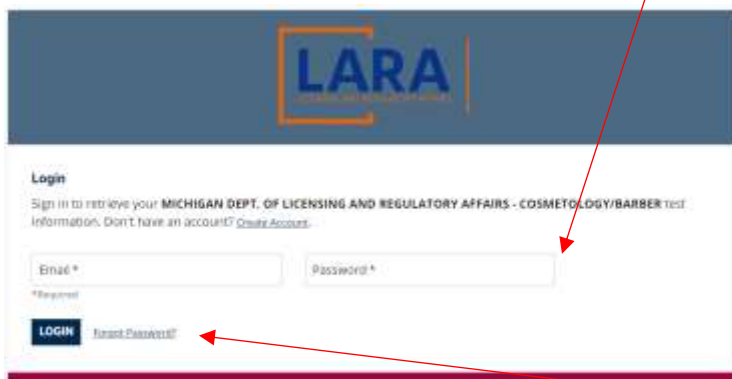

Follow the easy on-screen directions to pay and schedule for a test.

### LOGON TO A CURRENT PSI ACCOUNT OR REGISTER FOR A NEW ACCOUNT

When a test taker selects their test and delivery method, they will be then asked to LOGON/REGISTER

If the test taker has *ever* created an account with PSI they will need to continue with that same account. Please enter the username and password the account was created with.

If the password is lost, test takers may click on the “Forgot Password” to reset their account password. If test takers have difficulty entering their PSI account, please email [cosmetology@psionline.com](mailto:cosmetology@psionline.com) and request the assistance of a PSI testing professional. Test takers follow the easy instructions to pay and schedule their test.

## IMPORTANT! DO NOT CREATE ANOTHER TEST TAKER ACCOUNT! SEE THE INFORMATION BELOW

### RETURNING TO AN EXISTING ACCOUNT

When a test taker is in our system with an existing PSI account, and are having issues logging on, **please do not create new account** to attempt to bypass the old account. Creating a new account will only confuse the PSI system. The system does not know which file to choose and will not allow their information to become available.

Test takers use the login information they currently have with PSI, if that does not work, please email [cosmetology@psionline.com](mailto:cosmetology@psionline.com) OR [barber@psionline.com](mailto:barber@psionline.com) for assistance.

### DELETING A DUPLICATE ACCOUNT

If a test taker is certain another account exists, follow the instructions below to delete the duplicate account.

Please go to <https://test-takers.psiexams.com>

1. Click on "FIND YOUR TEST"

3. Locate your State and Industry - use the dropdown menus
4. At the top right, click "Sign In / Create Account"
  - a. If there is an existing account at [www.candidate.psiexams.com](http://www.candidate.psiexams.com), please use the existing username and password.
  - b. If #1 does not work, test takers will need to send an email to [OADelete@psionline.com](mailto:OADelete@psionline.com) with their Name and email address and request that they delete the old online account.
  - c. After confirmation has been received, it is completed, test takers can create a new account.
5. After logging in, click on "MANAGE" at the top and continue.

**Test takers who encounter questions or difficulty with registration, account location, paying, scheduling, or other issues, please do not call the Michigan Board Office as they do not have any information to aid test takers in their registration process.**

## COSMETOLOGY THEORY TEST

The test content outline is prepared and is periodically updated by committees of professionals who are subject matter experts in Cosmetology, Cosmetology instruction, or regulatory issues. The test content outline identifies areas of importance to licensees for them to perform their duties on the public in a competent and in a safe and responsible manner. The content outline lists topics that are on the test and the number of questions for each topic. We advise test takers not schedule a test until they are familiar with the topics on the outline. Test takers may use this outline as a guide as well as the test references as a guide for a pre-test review.

## COSMETOLOGY THEORY CONTENT OUTLINE

The following content outline lists the topics that are on the test and the number of questions for each topic. We recommend not scheduling a test until a test taker is familiar with all topics in the outline. The Cosmetology test consists of 110 scored questions and 10 non-scored experimental questions. Test takers will have 120 minutes (2.0 hours) to complete the test

## PSI SCORE REPORTING INFORMATION

Test takers must score at least 70% to pass the PSI National Cosmetology *Theory* test.

- Test Scores will be emailed to the test taker upon completion of their test.
- Test scores results are confidential and will be given only to the test taker and the Board office.
- Numeric test results are not available. Test takers who are successful, will receive a “PASS” report.
- Test takers who score below the required passing score will receive an overall score, and an individual score for each of the test topic areas. Test takers use this information to assist them in studying for a re-examination.

To better prepare for the PSI National Cosmetology Theory test, test takers can now review by taking an online practice test. Practice tests are intended to aid test takers with example test questions. The purpose is to familiarize a test taker with the general types of questions that will appear on a Cosmetology test. Though questions are based on cosmetology, these questions are NOT a substitute for education and study. Scoring well on the practice test also will not guarantee a positive outcome on the actual licensing test. This is the ONLY official PSI practice test; PSI does not recognize nor endorse any other study guides that may be offering information on the PSI National Cosmetology Program. The PSI practice tests are offered to review an unlimited number of times; however, a fee is assessed for *each time the test is utilized for review*.

Go to <https://www.psionlinestore.com> for more information and to register!

## EXAMINATION REVIEW

PSI, in cooperation with the Department and Michigan Board of Cosmetology, will be continually evaluating the tests being administered to ensure that the tests accurately measure competency in the required knowledge areas. Comments may be entered during the test by clicking the Comments link on the function bar of the test question screen. Test taker comments regarding the questions and the tests are welcomed. Comments will be analyzed by PSI test development staff. While PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. If a discrepancy is found during the comment review, PSI and the Department may re-evaluate test taker’ result and adjust them accordingly. This is the only review of the Theory test available to test takers. There is NO review process for the Practical portion of the test.

## OBTAINING A DUPLICATE SCORE REPORT

To request a duplicate score report and/or a license application after leaving the test, test takers may email [scorereport@psionline.com](mailto:scorereport@psionline.com) or call Customer Service (855) 340-3710.

## PSI NATIONAL PRACTICAL TEST- IMPORTANT GUIDELINES

For practical test questions or concerns, we recommend test takers and instructors to email [cosmetology@psionline.com](mailto:cosmetology@psionline.com).

Test takers should familiarize themselves with the following instructions to be properly prepared for the test, prior to registration.

- During the practical test, test takers must follow all appropriate rules for client protection that will ensure the health, safety, and welfare of the public.
- A proctor will be monitoring time during the test. Personal timers are not allowed in the testing room. Test takers will not receive a score for any activities not completed within the allotted topic area time limits. When the proctor gives an instruction to “Please stop working”, test takers are to immediately stop what they are doing, stand quietly, and wait for the next instruction to be given.
- Test takers are required to prepare and bring a closable container (“supply kit”), with all products, supplies, and equipment necessary to perform the topic areas included in this test. The suggested container dimensions should not exceed 24” wide, 36” long and 30” high. This will allow the test taker to place the supply kit under the table when not in use. There are no supply lists or suggested supplies for the PSI National Tests. PSI recommends the test taker bring the equipment and supplies needed to perform a Topic Area as they would in their own professional environment.
- Test takers are required to bring to the test, two containers to dispose of used items. One marked “Single-use” and one marked “multi-use”. All items used in the test are categorically disposed of in one of these containers.
- Individual bags may be packed and labeled for each topic area. Bags are to be emptied and placed in the “single use” bag after setting up the workstation.

- Products that are **not** grouped as “dangerous chemicals” by OSHA and are **not** required to be listed on an actual business SDS sheet, may be fictitious with actual label OR self-created label attached to the container. Some other substance may be used inside the container to simulate the product.
- Chemical products that are grouped as “dangerous chemicals” by OSHA and are required to be listed on SDS sheets in an actual business, are **required** to be used from the original container with an original manufacturers label attached or in a container with the manufacturers label attached.
- Absolutely NO aerosols are allowed into the testing area.
- Test takers may not observe other test takers during the test. PSI views and responds to this behavior as form of cheating. The test taker will be warned up to and including dismissal from the test. Please focus on individual tasks and do not depend on viewing the performance of other test takers to be successful.
- Test takers' name and/or school names are to be covered on their person and supplies while in the test.
- Disinfectant containers must have the **manufacturers label attached** and legible. Disinfectants used must have **virucidal, bactericidal and fungicidal** properties listed on the manufacturers label.
- Monomer must be in the original **manufacturer labeled, and sealed container, labeled odorless**. Polymer, dehydrator must be in the manufacturers labeled container.
- The number one safety rule in our industry is: “Following Instructions”. There is no necessary or required style or technique a school needs to teach, or a test taker needs to perform. All topic areas are observed in the manner a Cosmetologist would normally complete a task. Tasks should be taken seriously and performed as instructed in the test and to the highest skill level they are capable. Scores are based on the test taker displaying a solid knowledge of workplace Infection Control and Safety Precautions.

### WORKPLACE INFECTION CONTROL PRECAUTIONS

Test takers need to be familiar and follow all workplace infection control precautions. Here are some examples of the expectations of the test as well as an everyday business to familiarize a test taker with some of the industries infection control standards.

- Cleaning hands before starting a service. Knowing when hands become contaminated and keeping them clean as to not infect a client.
- Keeping the supply kit from becoming contaminated, such as: returning items to the kit, leaving a kit open or otherwise contaminating a kit. The supply kit represents a clean and disinfected storage in a cosmetologist's workstation and should be treated as such.
- Knowledge of single-use and multi-use items and how to dispose of them properly.
- Disinfecting workstation surfaces and keeping them from becoming contaminated. If a worksurface becomes unhealthy a test taker has the knowledge to know when they would require the station to be cleaned and disinfected.
- Knowing how to use and dispense products without contamination. For example, double dipping, or any other cross contamination with the skin or worksurfaces.
- Keeping clients from becoming contaminated by the cosmetologist.
- Keeping containers being used from contamination.
- Making sure our tools are clean and disinfected.
- If body fluid become present during a service (i.e., blood, vomit, feces, etc.), how we deal with a situation without contaminating ourselves and others.

### WORKPLACE SAFETY PRECAUTIONS

Test takers also need to be familiar and follow all workplace safety precautions. Here are some examples of the expectations of the test as well as an everyday business to familiarize a test taker with some of the industry safety standards.

- Cosmetologists must know and have a working understanding of workplace safety regulations issued by federal and state regulatory entities.
- Cross-contamination of chemicals and products on the workstation.
