PSI personnel will attempt to contact you in this situation. However, you may check the status of your examination schedule by calling (800) 733-9267. Every effort will be made to reschedule your examination at a convenient time as soon as possible.

You may request a duplicate score report after your examination by emailing scorereport@psionline.com or by calling 800-733-9267.

EXAMINATION REVIEW

PSI, in cooperation with TDLR, will be regularly evaluating the examinations being administered to ensure that the examinations accurately measure competency in the required knowledge areas. While taking the examination, examinees will have the opportunity to provide comments on any questions, by clicking the Comments link on the function bar of the test question screen.

These comments will be analyzed by PSI examination development staff. PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. If a discrepancy is found during the comment review, PSI and the department may re-evaluate candidates’ results and adjust them accordingly. This is the only review of the written examination available to candidates. There is NO review of the Practical examination.

### COMPUTER-BASED EXAMINATIONS

The examination will be administered via computer. You will be using a mouse and computer keyboard.

#### IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

#### TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers.

#### TEST QUESTION SCREEN

The “function bar” at the top of the test question provides mouse-click access to the features available while taking the examination.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your responses.

**IMPORTANT:** After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out or you have not ended your examination.

### WRITTEN EXAMINATION

The examination content outline has been prepared and is periodically updated by committees of professionals who are subject matter experts in practice, instruction, and regulatory issues. The examination content outline identifies areas of importance to licensees in order for them to perform their duties to the public in a competent and legally responsible manner.

Use the outline as a guide for pre-examination review of reference material. The outline lists the topics that are on the examination and the number of questions for each topic. Do not schedule your examination until you are familiar with the topics on the outline.
