## PURPOSE

This Candidate Information Bulletin is designed to provide you with general information about the California Registered Veterinary Technician (CRVT) written examination process, as well as an overview of the content areas in which you will be examined.

## EXAMINATION DEVELOPMENT

The California Registered Veterinary Technician Examination is developed by the Veterinary Medical Board (VMB) with the guidance and technical assistance of the Office of Professional Examination Services (OPES), California Department of Consumer Affairs.

## ESTABLISHING THE PASSING STANDARDS

A licensing examination determines whether an examinee is competent to practice, not whether the examinee performs better or worse than others who take the test.

In accordance with Business and Professions Code Section 101.6, the purpose of Boards, Bureaus, and Commissions is to "...establish minimum qualifications and levels of competency and license persons desiring to engage in the occupations they regulate upon determining that such persons possess the requisite skills and qualifications necessary to provide safe and effective services to the public, or register or otherwise certify persons in order to identify practitioners and ensure performance according to set and accepted professional standards."

## ESTABLISHING THE PASSING SCORE

The passing score for each CRVT examination is established by a panel of practicing veterinarians and Registered Veterinary Technicians (RVTs), acting as subject matter experts, who are trained by an OPES test development and validation specialist in the use of a criterion-referenced standard-setting procedure. These subject matter experts (SMEs) judge each exam item and assign a rating based on the probability that an entry-level RVT would answer the item correctly. These ratings are then averaged across SMEs and items, and the resulting mean is the passing score for the examination. The passing score thus reflects a fixed criterion for admission to practice; namely, minimally acceptable competence to practice safely as an RVT. Since the exam content changes, the passing score itself is not fixed from one administration to the next. The passing score will fluctuate moderately based on the difficulty of each item within the current form of the examination.

## EXAMINATION ADMINISTRATION BY PSI

The State has contracted with PSI licensure:certification (PSI) to conduct its examination program. PSI provides examinations through a network of computer examination centers in California.

All questions and requests for information about examinations should be directed to PSI.
