This bulletin is designed to provide general information regarding the California Psychiatric Technician Licensure Examination process.

**OBJECTIVE OF THE BOARD OF VOCATIONAL NURSING AND PSYCHIATRIC TECHNICIANS (BVNPT)**

The mission of the California Board of Vocational Nursing and Psychiatric Technicians is to protect the public. Public protection is paramount to the Board and its highest priority in exercising its licensing, regulatory and disciplinary functions. Toward this end, the Board ensures that only qualified persons are licensed vocational nurses and psychiatric technicians by enforcing education requirements, standards of practice and by educating consumers of their rights.

The BVNPT is mandated by law to protect the health, safety and welfare of consumers by ensuring that all licensees possess the knowledge, skills and abilities required to practice in a safe and competent manner. This includes development of a licensing examination that tests for minimum competency for those who wish to provide professional services to the consumer.

The psychiatric technician licensure examination tests candidates on their knowledge and professional skills, as well as their ability to make judgments about appropriate techniques and methods, as applicable to the Psychiatric Technician scope of practice. This scope of practice is defined in Business and Professions Code Section 4502, which states: “...psychiatric technician’ means any person who, for compensation or personal profit, implements procedures and techniques that involve understanding of cause and effect and that are used in the care, treatment, and rehabilitation of mentally ill or emotionally disturbed persons, or persons with intellectual disabilities and who has one or more of the following:

a. “Direct responsibility for administering or implementing specific therapeutic procedures, techniques, treatments, or medications with the aim of enabling recipients or patients to make optimal use of their therapeutic regime, their social and personal resources, and their residential care.

b. Direct responsibility for the application of interpersonal and technical skills in the observation and recognition of symptoms and reactions of recipients or patients, for the accurate recording of these symptoms and reactions, and for the carrying out of treatments and medications as prescribed by a licensed physician and surgeon or a psychiatrist.

The psychiatric technician in the performance of these procedures and techniques is responsible to the director of the service in which his or her duties are performed.

The director may be a licensed physician and surgeon, psychiatrist, psychologist, rehabilitation therapist, social worker, registered nurse, or other professional personnel.”

**EXAMINATION DEVELOPMENT**

The California Psychiatric Technician Licensure Examination is developed and maintained by the Board’s test vendor, Office of Professional Examination Services, a division of the California Department of Consumer Affairs. Individual examination items are developed in Item Development Conferences in a multiple-choice question format. Each item is carefully researched and validated with published references to ensure accuracy and consistency with entry level psychiatric technician practice.

**ESTABLISHING THE PASSING STANDARDS**

The examination measures the knowledge and skills required in current practice and represents a standard of performance that Psychiatric Technician Subject Matter Experts agree is the minimum level of competence required to practice safely at entry level for the profession. To establish the pass/fail standard, a panel of Subject Matter Experts, who are newly licensed or have direct experience with newly licensed Psychiatric Technicians, reviews the content of the examination questions. A psychometrician conducts the standard setting process in accordance with the requirements of the psychometric model used.

**EXAMINATIONS BY PSI LICENSURE:CERTIFICATION**

The State has contracted with PSI licensure:certification (PSI) to conduct its examination program. PSI provides examinations through a network of computer examination centers in California.

arrive late, you may not be admitted to the examination site and
you may forfeit your examination registration fee.

Candidates shall not communicate with anyone other than a
PSI proctor once their examination has begun. Visitors are not
allowed in the testing lobby.

Even though candidates will be thumb printed, you are still
required to comply with any identification requirements
established by the appropriate regulatory entity.

**REQUIRED IDENTIFICATION AT EXAMINATION SITE**

**IMPORTANT INFORMATION ABOUT TAKING AN
EXAMINATION**

1. **All candidates will have their thumbprint taken during
   examination check-in. The thumb print must be matched
   after candidates return from a restroom break and any time
   the candidate leaves and returns to the test site after
   check-in.**

2. **The temperature in the testing room is maintained at a
   moderate level. Candidates are advised to layer clothing.
   Acceptable layered clothing includes lightweight shirts,
   sweaters, and pullovers without pockets or hoods. These
   items must be worn upon check-in, while you wait to enter
   the testing room, and during your initial seating for the
   examination. If the layered item is removed during the
   examination, you will be required to store it in the lobby
   while time continues to count down on your examination.
   Outerwear (coats, heavy jackets, vests, shawls, scarves,
   etc.) is not allowed in the testing rooms.**

3. **There are timing mechanisms available in the testing room
   and on the computer console to help candidates keep track
   of time during the test administration. Candidates are not
   permitted to bring watches or other timekeeping devices
   into the testing rooms.**

4. **Only one candidate will be allowed to take a restroom break
   at a time. Candidates are required to sign out when leaving
   and returning to the testing room. If a candidate’s restroom
   break takes longer than 5 (five) minutes, a proctor will
   check on the candidate and will notify the applicable
   regulatory entity of the occurrence. The regulatory entity
   will investigate and take appropriate action.**

Examination proctors will have considerable discretion to refuse permission of clothing and/or items that compromise the integrity or security of the examination.

During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates must return these items to their vehicle or other place of safekeeping. 8. If a candidate is asked by a proctor to step into the lobby during your examination, the proctor will suspend the candidate’s examination, so all remaining test time will be retained.

EXAMINATION RESULTS

IF YOU PASS THE EXAMINATION

Candidates who pass the examination are eligible for licensure upon receipt of fingerprint clearance from the California Department of Justice and submission of the required initial license fee. Your license may be delayed if you have criminal background issues. Go to your online BreEZe account at www.breeze.ca.gov, apply for your license and pay the nonrefundable required fee. A license will not be issued unless the full license fee is paid.

FAILING SCORE REPORTS

The score report indicates the candidate's overall score and grade, including the number of items answered correctly. The number correct in each content area is displayed. The primary purpose in providing a sub-score for each part of the examination is to guide candidates in areas requiring additional preparation for re-testing.

Candidates who fail the examination will be eligible to retake the examination once after a period of one month. At that time, if the candidate fails the examination a second time, the candidate will be eligible to retake the examination once every six months. There is no limit on the number of retakes. To reschedule an examination, go to your online BreEZe account at www.breeze.ca.gov, fill out the Application for Re-Examination and pay the required, nonrefundable fee.

ABANDONMENT OF APPLICATION/INELIGIBILITY

Title 16, California Code of Regulations Section 2571 states:

(a) An application shall be deemed to have been abandoned and the application fee forfeited when:
   1. The applicant fails to complete the application within two years after it is originally submitted;
   2. The applicant fails to complete the application within two years after the last notice of deficiency; or
   3. The applicant, without good cause, fails to take the examination within one year after being scheduled.

(b) An application submitted subsequent to the abandonment of a former application shall be treated as a new application.
The development of a licensure examination program begins with an analysis of the professional practice to ensure that the licensure examination is job-related. The BVNPT conducts psychiatric technician occupational analyses and adopts the new test plans.

Specifically, licensees are interviewed to identify the tasks that are commonly performed by entry-level psychiatric technicians and the knowledge required to perform those tasks safely. This information is verified by panels of Subject Matter Experts and compiled into an occupational survey. A random population of licensees is then surveyed, the response data analyzed, and a new test plan developed. This test plan includes the critical tasks and the knowledge required to perform these critical tasks safely and competently as identified in the analysis. The test plan includes questions in the following content areas:
