SPECIAL EXAMINATION ARRANGEMENTS

All examination centers are equipped to provide access in accordance with the Americans with Disabilities Act (ADA) of 1990, and every reasonable accommodation will be made in meeting a candidate's needs. Applicants with disabilities or those who would otherwise have difficulty taking the examination must fill out the form at the end of this Candidate Information Bulletin and fax to PSI (702) 932-2666. This form also includes out-of-state testing requests.

EXAMINATION SITE CLOSING FOR AN EMERGENCY

In the event that severe weather or another emergency forces the closure of an examination site on a scheduled examination date, your examination will be rescheduled. PSI personnel will attempt to contact you in this situation. However, you may check the status of your examination schedule by calling (800) 733-9267. Every effort will be made to reschedule your examination at a convenient time as soon as possible. You may also check our website at www.psiexams.com.

EXAMINATION SITE LOCATION

The following test centers are located in Utah.

Note: The following directions are generated from the most current mapping services available. However, new road construction and highway modifications may result in some discrepancies. If you are not familiar with the specific area of the testing site, please consult a reliable map prior to your test date.

REPORTING TO THE EXAMINATION SITE

On the day of the examination, you should arrive at least 30 minutes before your appointment. This extra time is for sign-in, and identification. ***If you arrive late, you may not be admitted to the examination site and you will forfeit your examination registration fee.***

REQUIRED IDENTIFICATION AT EXAMINATION SITE

You must provide 2 forms of identification. One must be a VALID form of government issued identification (driver's license, state ID, passport, military ID), which bears your signature and has your photograph. The second ID must have your signature and preprinted legal name.

If you cannot provide the required identification, you must call (800) 733-9267 at least 3 weeks prior to your scheduled appointment to arrange a way to meet this security requirement. ***Failure to provide all of the required identification at the time of the examination without***

notifying PSI is considered a missed appointment, and you will not be able to take the examination.

SECURITY PROCEDURES

The following security procedures will apply during the examination:

- Cell phones, pagers, and children are not allowed in the examination site.
- Only non-programmable calculators that are silent, battery-operated, do not have paper tape printing capabilities, and do not have a keyboard containing the alphabet will be allowed in the examination site.
- No smoking, eating, or drinking will be allowed in the examination site.
- Copying or communicating examination content is a violation of PSI security policy. Either one may result in the disqualification of examination results and may lead to legal action.

SCORE REPORTING

A score report will be mailed to you approximately 10 weeks after the examination date.

Score reports will provide you with the next step in the licensure process. To ensure confidentiality, scores will not be given over the phone. Scores are reported pass or fail.

RETAKE INFORMATION.

To retake Section C and E of the examination, you must submit another Examination Registration Form and the appropriate fee to PSI. Retake fees are the same as original fees.

TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION

The LARE tests applicants for the knowledge and skill that is required to practice those aspects of landscape architecture that impact the health, safety and welfare of the public. The examination is based on a scientific "Job Analysis" study conducted in 2005 in which practicing landscape architects were asked to rate a series of tasks, knowledge areas and competencies needed to provide landscape architectural services.

The LARE consists of five test sections. Each section is independent of the others. Sections A, B and D are multiple-choice sections that are administered on computer. Sections C and E consist of 11"x17" vignette problems that require a drafted solution.

The following suggestions will help you prepare for your examination.

- Planned preparation increases your likelihood of passing.

- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Read study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice. Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

EXAMINATION CONTENT OUTLINE

Knowing what to expect when taking your exam may help you prepare for it. When taking the graphic response portions of the LARE, it is very important to budget your time as you will be asked to complete a set of vignette problems within a specific period of time. Each vignette is intended as a sketch problem.

Be sure to read the instructions carefully and completely before creating a solution. Your solution must respond to all of the requirements stated. You may use sketch paper to develop your solution before transferring it to the problem sheet; however, overlays will not be considered as part of your final solution.

Section C - Site Design. (4 vignette problems.) You will be tested on your ability to develop design, planning and management solutions considering on-site and off-site influences and convey the information through text and in drawings. You will be required to incorporate consultant studies into your design and predict the implications of your design, planning and management proposals on the natural and cultural systems both within the site and in the larger context.

You must be able to evaluate design alternatives to determine the appropriate solution and create design alternatives to demonstrate the range of options. You will also be expected to incorporate the design of circulation systems such as equestrian, bicycle, pedestrian and vehicular systems into your design solutions.

Section E - Grading, Drainage and Stormwater Management. (4 vignette problems.) You will be tested on your ability to develop grading and drainage plans considering on-site and off-site influences and convey the information in drawings. You must be able to manipulate contours to demonstrate your ability to convey water to meet design requirements while protecting land and water resources.

You will be expected to evaluate existing landforms and drainage systems to locate program elements minimizing environmental or economic impacts. You will also be required to think three-dimensionally to manipulate landforms to meet design requirements.

Study tools. CLARB produces study tools specifically designed to provide examination candidates with information about the LARE. For information on any of CLARB's publications, please contact the council office.
