INTRODUCTION

To advance from student of landscape architecture to landscape architect, a commitment to gaining status as a licensed professional is necessary. The Landscape Architects Technical Committee (LATC) recognizes the dedication required to achieve this goal.

This guide will assist individuals at their final stage of the examination process. Contents include information on examination eligibility and scheduling, an overview of the examination content, and general examination policies and procedures.

The LATC's website is another informational source for candidates, in particular for current updates and changes to the law that may affect licensure and the practice of landscape architecture. Staff are always available to assist with more specific questions. Listed below are examples of the information and forms available on the website:

- Examination applications and supporting forms
- Examination fees and locations
- Frequently asked questions related to licensure and examinations
- Landscape Architects Practice Act

PURPOSE

The purpose of this Candidate Guide is to provide candidates with specific information about the California Supplemental Examination (CSE) process and an overview of content areas in which candidates will be examined.

OBJECTIVE OF THE LANDSCAPE ARCHITECTS TECHNICAL COMMITTEE

State licensing boards are mandated to protect the public by developing licensing examinations that test for minimum competency for those who wish to provide professional services to the public. These examinations require candidates to demonstrate that they possess the minimum knowledge, skills, and abilities (KSAs) that are necessary to perform safely and effectively in independent practice without supervision.

Section 5615 of the Business and Professions Code defines the practice of landscape architecture as:

"A person who practices landscape architecture within the meaning and intent of this article is a person who offers or performs professional services, for the purpose of landscape preservation, development and enhancement, such as consultation, investigation, reconnaissance, research, planning, design, preparation of drawings, construction documents and specifications, and responsible construction observation."

Examinations administered by the LATC test candidates with regard to the KSAs necessary to perform each job task safely and competently. The CSE is designed to assess the candidate's knowledge as *applied* to job activities of *in the practice of landscape architecture in California* including California laws, regulations, and other areas of practice that

are either unique or more prevalent in California and not covered in the Landscape Architect Registration Examination (LARE).

EXAMINATIONS BY PSI

The Department of Consumer Affairs, LATC, has contracted with PSI to administer the CSE. PSI provides examinations through a network of computer examination centers in California and nationwide.

All questions regarding the scheduling and administration of examinations should be directed to PSI.

EXAMINATION SCHEDULING PROCEDURES

Once a candidate has established eligibility for the CSE by the LATC, the candidate becomes responsible for contacting PSI to schedule an appointment to take the CSE. A candidate may schedule via the Internet at www.psiexams.com, or over the telephone at (877) 392-6422.

Current policy allows one test attempt per application. If a candidate does not pass the examination, the candidate must reapply to the LATC.

The PSI testing centers are open for testing during normal working hours of 8:00 a.m. to 5:00 p.m. Monday through Friday, and operating hours on Saturday, except for the following major holidays:

Memorial Day	Closed May 29, 2017
Independence Day	Closed July 4, 2017
Labor Day	Closed September 4, 2017
Thanksgiving	Closed November 23-24, 2017
Christmas	Closed December 24-25, 2017
New Years Day	Closed January 1, 2018
Martin Luther King Jr.	Closed January 15, 2018

INTERNET SCHEDULING

A candidate may schedule an examination by completing the online Test Registration Form available at www.psiexams.com. Scheduling an examination via the Internet is available 24 hours a day.

1. Complete the registration form online and submit to PSI via the Internet.
2. Upon completion of the online registration form, a candidate will be given the available dates for scheduling an examination.
3. A candidate will need to choose a date to complete their registration.
4. Upon successful registration, a candidate will receive a traceable confirmation number.

TELEPHONE SCHEDULING

PSI has two scheduling methods available if a candidate wishes to schedule by telephone. First, call PSI at (877) 392-6422, 24 hours a day and schedule using the Automated Registration System. Second, to schedule with a live operator, use this same telephone number to contact PSI registrars Monday through Friday between 4:30 a.m. and 7:00 p.m. and Saturday, between 8:00 a.m. and 2:00 p.m., Pacific Time, to schedule an examination appointment. Scheduling services are also available via a PSI Telecommunications Device for the Deaf (TDD) by calling (800) 735-2929.

CANCELING AN EXAMINATION APPOINTMENT

A candidate may cancel and reschedule an examination appointment without forfeiting the fee *IF A CANCELLATION NOTICE IS RECEIVED TWO (2) DAYS PRIOR TO THE SCHEDULED EXAMINATION DATE*. For example, for a 9:00 a.m. Monday appointment, the cancellation notice would need to be received before 9:00 a.m. on the previous Saturday. A candidate may call PSI at (877) 392-6422. Please note that a candidate may also use the automated system, using a touch-tone phone, 24 hours a day in order to cancel and reschedule an appointment.

Note: A voice mail message is not an acceptable form of cancellation. Please use the PSI website, automated telephone system, or call PSI and speak to a Customer Service Representative.

MISSED APPOINTMENT OR LATE CANCELLATION

A candidate who misses their appointment will not be able to take the examination as scheduled, further the examination fee is forfeited if a candidate:

- Does not cancel their appointment two (2) days before the scheduled examination date;
- Does not appear for their examination appointment;
- Arrives after examination start time; or
- Does not present proper identification to the proctor at the examination site.

RE-EXAMINATION

Candidates who fail the CSE are eligible to retake the examination 90 days from the notification of failed examination. Candidates will be given an application to retake the CSE at the testing center or may obtain it on the LATC website at www.latc.ca.gov or by calling (916) 575-7230.

The CSE application and fee must be submitted directly to the LATC. Candidates will receive a Notice of Eligibility from PSI after the LATC receives and processes the CSE application and fee. The process takes approximately *four* weeks to complete.

EXAMINATION SITE CLOSING FOR AN EMERGENCY

In the event that severe weather or another emergency forces the closure of an examination site on a scheduled examination date, the examination will be rescheduled. PSI personnel will attempt to contact candidates in this situation. However, candidates may check the status of an examination appointment by calling (877) 392-6422. Every effort will be made to reschedule a candidate's examination at a convenient time as soon as possible. Candidates will not be penalized. They will be rescheduled at no additional charge.

CONFIRMATION OF EXAMINATION APPOINTMENT

The LATC recommends that candidates confirm their examination appointment with PSI prior to traveling to an examination site. An examination appointment can be confirmed by calling (877) 392-6422.

REASONABLE ACCOMMODATIONS AVAILABLE

All examination sites are physically accessible to individuals with disabilities. Scheduling services are also available via our Telecommunications Device for the Deaf (TDD) by calling (800) 735-2929.

The LATC and PSI recognize their responsibilities under the Federal Americans with Disabilities Act and the California Fair Employment and Housing Act by providing testing accommodations or auxiliary aids or services for candidates who substantiate the need due to a physical or mental disability or qualified medical condition.

Accommodations will not be provided at the examination site unless prior approval by the LATC has been granted. Reasonable, appropriate, and effective accommodations may be requested by submitting a "Reasonable Accommodation Request for CSE" form to the LATC. This form is available at http://www.latc.ca.gov/forms_pubs/reasonaccom.pdf.

Requests for accommodation must be received a minimum of 90 days prior to the desired test date to allow for processing. Accommodations that fundamentally alter the measurement of the skills or knowledge the examination is intended to test will not be granted.

Do not schedule your examination with PSI until you have received written notification from the LATC regarding your request for accommodation.

EXAMINATION SITE LOCATIONS

SUITE 205
RICHMOND, VA 23236

FROM I-64E, TAKE THE PARHAM RD EXIT AND TURN RIGHT. N PARHAM RD/VA-73 S BECOMES VA-150 S/CHIPPENHAM PKWY. MERGE ONTO VA-76 S/POWHITE PKWY. MERGE ONTO MIDLOTHIAN TURNPIKE WEST. TURN LEFT ON MOOREFIELD PARK DR.

SOUTHFIELD (DETROIT AREA) EXAMINATION CENTER

CROSSROADS BUILDING
16250 NORTHLAND DRIVE, SUITE 361
SOUTHFIELD, MI 48075

FROM I-75 NORTH AND SOUTH, EXIT WEST 8 MILE RD. CROSS THE LODGE FWY (HWY 10). TURN RIGHT ON NORTHLAND DRIVE. NORTHLAND DRIVE IS NEXT TO THE NORTHLAND SHOPPING CENTER. FROM SOUTHFIELD FWY NORTH AND SOUTH, EXIT EAST 8 MILE RD. GO EAST ON 8 MILE TO NORTHLAND DRIVE. NORTHLAND DRIVE IS NEXT TO THE NORTHLAND SHOPPING CENTER

WEST DES MOINES

1001 OFFICE PARK ROAD, SUITE 315
WEST DES MOINES, IA 50265

FROM I-235, EXIT 8TH ST/73RD ST AND PROCEED SOUTH. TURN RIGHT ON OFFICE PARK ROAD. TURN RIGHT INTO THE DRIVEWAY.

WEST HARTFORD

45 SOUTH MAIN STREET, SUITE 209
WEST HARTFORD, CT 06107

FROM I-84, EXIT 41, S. MAIN ST. AND PROCEED NORTH APPROXIMATELY 2 MILES. 45 SOUTH MAIN WILL APPEAR ON THE LEFT, DIRECTLY ACROSS THE STREET FROM THE TOWN HALL, BEFORE YOU CROSS FARMINGTON AVENUE. THE ATTENDANT WILL PARK YOUR CAR AT NO CHARGE. TAKE THE ELEVATOR TO THE SECOND FLOOR TO SUITE 209.

WILSONVILLE

25195 SW PARKWAY, SUITE 105
WILSONVILLE, OR 97070

GOING SOUTH: OFF I5, TAKE EXIT 286 (ELLINGENS/BOONES FERRY RD). TURN LEFT AND CROSS BACK OVER THE FREEWAY. TURN LEFT AT 2ND SIGNAL LIGHT (PARKWAY AVE.) TURN INTO PARKWAY PLAZA PARKING LOT (ACROSS THE STREET FROM SHRINER'S). WE ARE LOCATED IN THE MAIN ENTRANCE FIRST DOOR ON THE RIGHT.

WOODBURY

6053 HUDSON RD, SUITE 210
WOODBURY, MN 55125

FROM I-94 GO SOUTH ON CENTURY TO THE FIRST LEFT (WHICH IS THE FRONTAGE ROAD ENTRANCE TO THE COUNTRY INN). ENTER THE OFFICE COMPLEX THROUGH THE SINCLAIR GAS STATION AND ALONG BACK OF THE INN. 6053 IS THE BUILDING DIRECTLY AHEAD. THE ENTRANCE ON THAT (WEST) SIDE IS ACTUALLY ON THE 2ND FLOOR. SUITE 210 IS DOWN THE CORRIDOR TO THE RIGHT. PLEASE USE THE WEST ENTRANCE ON SATURDAYS.

On the day of the examination, candidates must arrive at least 30 minutes prior to a scheduled appointment time. This allows time for check-in and identification verification and provides time for the candidates to familiarize themselves with the examination process. Candidates who arrive late may not be admitted to the examination site, and they may forfeit the examination registration fee. Even though candidates will be thumb printed, they are still required to comply with any identification requirements established by the appropriate regulatory entity.

REQUIRED IDENTIFICATION AT EXAMINATION SITE

A candidate must provide one of the following valid and current forms of government issued identification in order to examine:

- State issued Driver License
- State issued Identification Card
- U.S. military issued identification card
- U.S. issued passport

All identification photographs must be recognizable as the person to whom the identification card was issued. The name on the application must match the photographic I.D. card.

If a candidate cannot provide the required identification, the candidate must call (877) 392-6422 at least 3 weeks prior to their scheduled appointment to arrange a way to meet this security requirement. *Failure to provide all of the required identification at the time of the examination without notifying PSI is considered a missed appointment, and the candidate will not be able to take the examination.*

CALIFORNIA LAW SECURITY PROCEDURES

Section 123 of the California Business and Professions Code states: It is a misdemeanor for any person to engage in any conduct which subverts or attempts to subvert any licensing examination or the administration of an examination, including, but not limited to:

- Conduct which violates the security of the examination materials;
- Removing from the examination room any examination materials without authorization;
- The unauthorized reproduction by any means of any portion of the actual licensing examination;
- Aiding by any means the unauthorized reproduction of any portion of the licensing examination;
- Paying or using professional or paid examination-takers for the purpose of reconstructing any portion of the licensing examination;
- Obtaining examination questions or other examination material, except by specific authorization either before, during, or after an examination; or
- Selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered licensing examination.
- Communicating with any other examinee during the administration of a licensing examination.

- Copying answers from another examinee or permitting one's answers to be copied by another examinee.
- Having in one's possession during the administration of the licensing examination any books, equipment, notes, written or printed materials, or data of any kind, other than the examination materials distributed, or otherwise authorized to be in one's possession during the examination.
- Impersonating any examinee or having an impersonator take the licensing examination on one's behalf.

Nothing in this section shall preclude prosecution under authority provided for in any other provision of law. In addition to any other penalties, a person found guilty of violating this section, shall be liable for the actual damages sustained by the agency administering the examination not to exceed ten thousand dollars (\$10,000) and the costs of litigation.

Additionally, section 496 states: A board may deny, suspend, revoke, or otherwise restrict a license on the ground that an applicant or licensee has violated section 123 pertaining to subversion of licensing examinations.

IMPORTANT INFORMATION ABOUT TAKING AN EXAMINATION

1. All candidates will have their thumbprint taken during examination check-in and re-entry into the testing room after an approved absence. If a candidate passes the examination, the thumbprint record will be destroyed. If a candidate abandons his or her application for licensure, as determined by the appropriate regulatory authority, the thumbprint will also be destroyed. If a candidate is unsuccessful, the thumbprint record will be retained by PSI to ensure proper identification on any subsequent examination attempts. If the thumbprint doesn't match upon exit and re-entry, the candidate shall be disqualified from the examination, his or her test results invalidated, and the appropriate regulatory entity will be notified of the occurrence. The taking of the thumbprint is an additional measure to enhance examination security. The Department's Office of Professional Examination Services (OPES) shall ensure that the appropriate safeguards for the storage and destruction of the thumbprint records are in place.
2. The temperature in the testing room is maintained at a moderate level. Candidates are advised to layer clothing. **Acceptable layered clothing includes lightweight shirts, sweaters, and pullovers without pockets.** These items must be worn upon check-in, while candidates wait to enter the testing room, and during the initial seating for the examination.
3. There are timing mechanisms available at the test site and on the computer console to help candidates keep track of time during the test administration. Watches or other timekeeping devices are not permitted in the examination rooms.
4. Only one candidate will be allowed to take a restroom break at a time. Candidates are required to sign out when you leave the room and when you return. If a candidate's restroom break takes longer than 5 (five) minutes, a proctor will check on the candidate and will notify the applicable

regulatory entity of the occurrence, which will take appropriate action.

5. The following items are not permitted in the examination rooms:

- Cellular telephones, personal digital assistants (PDAs), recording devices, cameras, pagers, purses, notebooks, notebook computers, reference or readings material, music players, radios, electronic games, calculators, or briefcases.
- Personal items including watches, backpacks, wallets, pens, pencils, or other writing devices, food, drinks (unless prior approval is obtained by your regulatory entity) and good-luck items.
- Hats, baseball caps, or visors (with the exception of religious apparel), coats, shawls, hooded clothing, heavy jackets or overcoats.

During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates shall return these items to their vehicle or other place of safekeeping. Neither PSI, nor the Department of Consumer Affairs, shall be responsible for the items. Any candidate possessing the prohibited items in the examination room shall have his or her test results invalidated, and PSI shall notify the appropriate regulatory entity of the occurrence.

6. Copying or communicating examination content is a violation of PSI security policy and existing law. Either one shall result in the disqualification or invalidation of examination results, the denial of a candidate's license, and may subject the candidate to criminal prosecution.
7. If the candidate is asked by a proctor to step into the lobby during and examination, the proctor will suspend the candidate's examination and the candidate will not lose any remaining test time.

TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers. The "Function Bar" at the top of the sample question provides mouse-click access to the features available while taking the examination.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

EXAMINATION REVIEW

Examination development and testing specialists in conjunction with the LATC, will continually evaluate the examinations being administered to ensure that the examination accurately measures competency in the required knowledge areas.

EXAMINATION DEVELOPMENT

The LATC CSE is developed and maintained by OPES, a division of the Department of Consumer Affairs. OPES staff consists of test validation and development specialists trained to develop and analyze occupational licensing examinations.

California licensed landscape architects are trained by these testing specialists and participate in workshops where examinations are developed. The licensed landscape architects are referred to as "Subject Matter Experts" (SMEs). These SMEs write and review multiple-choice questions based specifically on the examination plan, which is a result of the most recent occupational analysis.

The cooperative efforts among the members of the landscape architecture profession, the OPES, and the LATC are necessary to achieve both the measurement and content standards for examination construction.

ESTABLISHING THE PASSING STANDARDS

The CSE measures knowledge and skills required for landscape architectural practice in California, and represents a standard of performance that landscape architect SMEs agree is the minimum acceptable level for licensing in the profession.

To establish pass/fail standards for the CSE, a criterion-referenced passing score methodology is used. The intent of this methodology is to differentiate between a qualified and unqualified licensure candidate. The passing score is based on minimum competence criterion that are defined in terms of the actual behaviors that qualified architects would perform if they possessed the knowledge necessary to perform job activities.

During a criterion-referenced passing score procedure, a panel of landscape architect SMEs also consider other factors that would contribute to minimum acceptable competence, such as prerequisite qualifications (e.g., education, training and experience); the difficulty of the issues addressed in each multiple-choice item; and public health and safety issues. By adopting a criterion-referenced passing score, the LATC applies the same minimum competence standards to all licensure candidates.

EXAMINATION RESULTS

After completing the CSE, a candidate will receive a printed Score Report indicating whether they have passed or failed.

Candidates who pass the CSE are eligible for licensure. The LATC will provide information on obtaining licensure to eligible candidates.

Candidates who fail the CSE are eligible to retake the examination 90 days from the notification of failed examination. Candidates who are unsuccessful will be given an application to re-take the CSE at the testing center or they may obtain it on the LATC website at www.latc.ca.gov or by calling (916) 575-7230.

There is no provision for an appeal of a candidate's failed examination score.

Submittal of a new application and payment to the LATC is required in order to retake the CSE; however, a candidate cannot schedule or retake the examination for at least 90 days from the date he or she took the examination they failed. If the new application and payment are received by the LATC within the 90-day wait time, a new notice of eligibility (CSE Candidate Guide) will be sent to the candidate (from PSI) near the end of that waiting period. If the application and payment are received any time after that waiting period, they will be processed within normal processing times by the LATC, PSI will be notified of the candidate's renewed eligibility, and a new notice of eligibility will be sent to the candidate (from PSI).

LANDSCAPE ARCHITECT CSE TEST PLAN CONTENT

The CSE is designed to assess a candidate’s knowledge and experience as *applied* to job activities of landscape architects. The CSE is structured into *weighted* content areas.

The examination plan represents job tasks and knowledge, skills, and abilities that licensees are expected to know and perform at the time of licensure. Examination questions are developed directly from specific tasks and the KSAs associated with those tasks in the examination plan.

The CSE consists of multiple-choice items and may contain additional items for the purpose of pre-testing (non-scoreable items). Pre-testing allows performance data to be gathered and evaluated before the items are scoreable in a future examination. These pre-test items, distributed throughout the examination, are not identified or used in calculating the examination score.

All of the scoreable items in the CSE have been written and reviewed by California-licensed landscape architects, are based on the knowledge statements contained in the CSE Examination Plan, are written at a level to assess minimum standards of competency necessary for practice in California, and have been pre-tested to ensure statistical performance standards are met.

There is only one correct answer for each item. The “incorrect” answers are typically common errors and misconceptions, true but not relevant statements, or incorrect statements. There are no “trick” questions in the examination. Candidates will have approximately TWO AND A HALF (2.5) hours to complete the examination.

I. SITE ASSESSMENT (15%): This area assesses the candidate’s ability to evaluate and analyze the project site and surrounding conditions to determine opportunities and constraints based on the client’s goals and objectives.

A. Site Inventory and Analysis (10%)

Task Statement	Linked Knowledge
2 Gather general site information and data to identify alternative approaches to the project	2 Knowledge of methods for collecting and evaluating the information (e.g., regulatory impacts, projected costs, local and environmental issues) needed to determine the feasibility of approaches to a project 10 Knowledge of the types of natural site conditions and resources (e.g., sensitive environments, geology, and existing ecology) and their potential effect on site development 13 Knowledge of types of hazardous conditions (e.g., fire, flood, erosion, storm water, soil contaminants) and their potential effect on site development 17 Knowledge of methods for obtaining site and design history sufficient to understand the significance of cultural/historical site elements
8 Identify on- and off-site conditions and evaluate the potential opportunities and constraints for project development	10 Knowledge of the types of natural site conditions and resources (e.g., sensitive environments, geology, and existing ecology) and their potential effect on site development 13 Knowledge of types of hazardous conditions (e.g., fire, flood, erosion, storm water, soil contaminants) and their potential effect on site development 12 Knowledge of procedures used to evaluate the impact of off-site conditions (e.g., environmentally sensitive resources, watershed boundaries) on site development 17 Knowledge of methods for obtaining site and design history sufficient to understand the significance of cultural/historical site elements
10 Evaluate the potential impacts to the site and surrounding areas posed by the project development	10 Knowledge of the types of natural site conditions and resources (e.g., sensitive environments, geology, and existing ecology) and their potential effect on site development 13 Knowledge of types of hazardous conditions (e.g., fire, flood, erosion, storm water, soil contaminants) and their potential effect on site development 12 Knowledge of procedures used to evaluate the impact of off-site conditions (e.g., environmentally sensitive resources, watershed boundaries) on site development 17 Knowledge of methods for obtaining site and design history sufficient to understand the significance of cultural/historical site elements

B. Laws, Codes, and Regulations (5%)

Task Statement	Linked Knowledge
14 Determine the relevant laws, codes, and regulations that govern the project	15 Knowledge of data and information resources available (e.g., agency contacts, technical consultants) to research the potential impacts from on and off-site factors on site development 19 Knowledge of methods and procedures for clarifying and evaluating regulatory requirements (e.g. applicable laws, responsible agency, requirements and approval process) and their potential effect on project development 20 Knowledge of methods for determining the laws, codes, easements and restrictions that apply to the project and their impact on project development
15 Identify the responsible regulatory agencies and their requirements and approval processes to evaluate the impact on the project (e.g., scope, costs, schedule)	15 Knowledge of data and information resources available (e.g., agency contacts, technical consultants) to research the potential impacts from on and off-site factors on site development 19 Knowledge of methods and procedures for clarifying and evaluating regulatory requirements (e.g. applicable laws, responsible agency, requirements and approval process) and their potential effect on project development 20 Knowledge of methods for determining the laws, codes, easements and restrictions that apply to the project and their impact on project development
16 Coordinate research with technical consultants to evaluate the regulatory and property requirements (e.g., easements, setbacks, restrictions, master/general plans) affecting the site	15 Knowledge of data and information resources available (e.g., agency contacts, technical consultants) to research the potential impacts from on and off-site factors on site development 19 Knowledge of methods and procedures for clarifying and evaluating regulatory requirements (e.g. applicable laws, responsible agency, requirements and approval process, etc.) and their potential effect on project development 20 Knowledge of methods for determining the laws, codes, easements and restrictions that apply to the project and their impact on project development

II. PROGRAM DEVELOPMENT (10%): This area assesses the candidate’s ability to develop and evaluate program elements based on the client’s goals and the site conditions and constraints.

Task Statement	Linked Knowledge
1 Develop project program based on the goals and objectives of the client and users	1 Knowledge of methods for determining the project scope and developing project parameters 5 Knowledge of methods and techniques for communicating program ideas to clients, the project team, and the public 21 Knowledge of methods for preserving, enhancing, or featuring unique site features (e.g., vegetation, geology, views, waterways, cultural/historical elements) in the design process
7 Develop program alternatives that support human communities, preserve and enhance the environment and biodiversity, and restore degraded sites (e.g., soil mitigation, constructed wetland)	3 Knowledge of water management strategies and systems 6 Knowledge of current approaches to sustainable and low impact development 7 Knowledge of design strategies to facilitate active living (e.g., walkable cities, transit-oriented development, safe routes to schools, bike paths) 9 Knowledge of design strategies that preserve native habitat and promote biodiversity 21 Knowledge of methods for preserving, enhancing, or featuring unique site features (e.g., vegetation, geology, views, waterways, cultural/historical elements) in the design process
13 Identify and engage individuals, groups, and organizations that may have specific knowledge or concerns about the site so that the potential impact on the project can be evaluated	1 Knowledge of methods for determining the project scope and developing project parameters 5 Knowledge of methods and techniques for communicating program ideas to clients, the project team, and the public 21 Knowledge of methods for preserving, enhancing, or featuring unique site features (e.g., vegetation, geology, views, waterways, cultural/historical elements) in the design process

III. DESIGN PROCESS (65%): This area assesses the candidate’s ability to develop, evaluate, and refine design solutions to meet the client’s needs.

	Task Statement	Linked Knowledge
3A Sustainability and Energy Conservation (6%)	27 Develop project solutions to implement environmentally responsible design practices to assist in resource preservation (e.g., air quality, energy conservation, water conservation)	55 Knowledge of regulations and best management practices for sustainable development (e.g., CalGreen, LEED, Sustainable Site Initiative, Green Roofs) 58 Knowledge of landscape solutions that promote energy conservation
	29 Develop landscape solutions to promote energy conservation (e.g., strategic tree planting, use local products)	55 Knowledge of regulations and best management practices for sustainable development (e.g., CalGreen, LEED, Sustainable Site Initiative, Green Roofs) 58 Knowledge of landscape solutions that promote energy conservation
3B Site Remediation (6%)	19 Develop measures for the mitigation, remediation, or reclamation of impacts to the environment from site development	30 Knowledge of the effects of environmental toxicity on soil and plants 31 Knowledge of mitigation solutions for complying with environmental regulations (e.g., CEQA, NEPA) 32 Knowledge of remediation strategies and their application for natural resource restoration/preservation (e.g. bioremediation and phyto-remediation) 33 Knowledge of strategies for amending site conditions (e.g., alkaline soil, requirements of soil conditions, aerially deposited lead, etc.)
3C Access and Circulation (13%)	24 Design circulation systems (vehicular and non-vehicular) within regulatory design specifications to facilitate implementation of project	46 Knowledge of California accessibility requirements and methods for achieving accessibility in the site and the vehicular and non-vehicular circulation system designs 47 Knowledge of resources for interpreting and implementing regulatory and technical requirements (e.g. agency contacts, technical consultants) related to site development
	25 Design site plan for user safety, security, and crime prevention to facilitate implementation of project	46 Knowledge of California accessibility requirements and methods for achieving accessibility in the site and the vehicular and non-vehicular circulation system designs 47 Knowledge of resources for interpreting and implementing regulatory and technical requirements (e.g. agency contacts, technical consultants) related to site development 49 Knowledge of design options for site layout to increase user safety, security, and crime prevention (e.g., equipment, lighting, plantings, site layout)

3D Water Management (12%)	21 Design site grading and drainage plan that facilitates implementation of the project and offers solutions for stormwater management	41 Knowledge of federal, State, and local laws and requirements regarding stormwater 42 Knowledge of design solutions for water management and conservation (e.g., erosion control, rainwater harvesting, grey water, recycled water, retention and detention) 43 Knowledge of Low Impact Development (LID) methods and the procedures for their implementation (e.g., bioretention, soil amendments, vegetated swales and buffers, Green Streets)
	22 Develop design solutions for water conservation and management to assist in resource preservation (e.g., water reuse, water recycling, water harvesting)	41 Knowledge of federal, State, and local laws and requirements regarding stormwater 42 Knowledge of design solutions for water management and conservation (e.g., erosion control, rainwater harvesting, grey water, recycled water, retention and detention) 43 Knowledge of Low Impact Development (LID) methods and the procedures for their implementation (e.g., bioretention, soil amendments, vegetated swales and buffers, Green Streets)
3E Planting & Landscape Strategies (18%)	18 Design planting plan to identify vegetation types and locations based on client goals, suitability, and sustainability to comply with the requirements of the project plan	23 Knowledge of factors that affect plant health and longevity (e.g., geography, weather, soils, water quality, water availability, pathogens) 24 Knowledge of approaches to plant selection and compatibility that support water management and conservation (including WUCOLS) 25 Knowledge of landscape strategies that support California's ecological communities and ecoregions 26 Knowledge of plants invasive to California ecological communities 27 Knowledge of plants noxious to people and domesticated animals 29 Knowledge of planting strategies that mitigate site hazards (e.g., erosion, fire)
3F Irrigation (10%)	20 Design irrigation system to facilitate water management and efficient distribution of water to promote healthy plant growth	34 Knowledge of principles and procedures of irrigation system design (e.g., equipment, applications, water conservation) 35 Knowledge of methods and procedures for employing alternative water sources 36 Knowledge of State and local requirements regarding water management and conservation (e.g., AB 1881, CBC) 37 Knowledge of how to perform water use calculations

IV. Construction Documents and Contract Performance (10%): This area assesses the candidate’s ability to prepare construction documents and perform administration.

Task Statement		Linked Knowledge	
30	Prepare construction documents including demolition, site protection and preservation, grading and drainage, planting, irrigation, layout, lighting, etc.	59	Knowledge of procedures for preparing construction documents and jurisdictional submittals (e.g., approvals, permits)
		67	Knowledge of California law as it relates to contracts and construction (e.g., lien requirements, minimum warranty periods, CBC)
		72	Knowledge of procedures for evaluating work conformance and completeness in relation to the construction documents
34	Develop professional services contract in keeping with legal requirements and professional practice	64	Knowledge of professional and ethical standards related to practice of landscape architecture
		67	Knowledge of California law as it relates to contracts and construction (e.g., lien requirements, minimum warranty periods, CBC)
		72	Knowledge of procedures for evaluating work conformance and completeness in relation to the construction documents
35	Perform project/contractual responsibilities in keeping with professional and ethical standards	64	Knowledge of professional and ethical standards related to practice of landscape architecture
		67	Knowledge of California law as it relates to contracts and construction (e.g., lien requirements, minimum warranty periods, CBC)
		72	Knowledge of procedures for evaluating work conformance and completeness in relation to the construction documents
		70	Knowledge of procedures for contract close-out (e.g., punch lists)

BUSINESS & PROFESSIONS CODE SECTIONS REGARDING EXAMINATION SECURITY

123. It is a misdemeanor for any person to engage in any conduct which subverts or attempts to subvert any licensing examination or the administration of an examination, including, but not limited to:

- (a) Conduct which violates the security of the examination materials; removing from the examination room any examination materials without authorization; the unauthorized reproduction by any means of any portion of the actual licensing examination; aiding by any means the unauthorized reproduction of any portion of the actual licensing examination; paying or using professional or paid examination-takers for the purpose of reconstructing any portion of the licensing examination; obtaining examination questions or other examination material, except by specific authorization either before, during, or after an examination; or using or purporting to use any examination questions or materials which were improperly removed or taken from any examination for the purpose of instructing or preparing any applicant for examination; or selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered licensing examination.

(b) Communicating with any other examinee during the administration of a licensing examination; copying answers from another examinee or permitting one's answers to be copied by another examinee; having in one's possession during the administration of the licensing examination any books, equipment, notes, written or printed materials, or data of any kind, other than the examination materials distributed, or otherwise authorized to be in one's possession during the examination; or impersonating any examinee or having an impersonator take the licensing examination on one's behalf.

Nothing in this section shall preclude prosecution under the authority provided for in any other provision of law.

In addition to any other penalties, a person found guilty of violating this section, shall be liable for the actual damages sustained by the agency administering the examination not to exceed ten thousand dollars (\$10,000) and the costs of litigation.

(c) If any provision of this section or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the section that can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

123.5. Whenever any person has engaged, or is about to engage, in any acts or practices which constitute, or will constitute, a violation of Section 123, the superior court in and for the county wherein the acts or practices take place, or are about to take place, may issue an injunction, or other appropriate order, restraining such conduct on application of a board, the Attorney General or the district attorney of the county.

The proceedings under this section shall be governed by Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure.

The remedy provided for by this section shall be in addition to, and not a limitation on, the authority provided for in any other provision of law.

496. A board may deny, suspend, revoke, or otherwise restrict a license on the ground that an applicant or licensee has violated Section 123 pertaining to subversion of licensing examination.

**CALIFORNIA ARCHITECTS BOARD
LANDSCAPE ARCHITECTS TECHNICAL COMMITTEE
NOTICE OF CSE ELIGIBILITY**

Candidates receiving this guide are eligible to take the California Supplemental Examination (CSE). This is the ONLY notice of eligibility a candidate will receive from the LATC for this examination.

This guide provides important information regarding CSE procedures, processes, and content. To schedule an examination, please refer to the instructions in this guide.

Upon passing the CSE, you are eligible to apply for a landscape architect license in California. Information about applying for a license is included in this guide.
