- Cell phones, pagers, and children are not allowed in the examination site.
- No smoking, eating, or drinking will be allowed in the examination site.

TAKING THE WRITTEN EXAMINATION BY COMPUTER

Taking the PSI examination by computer is simple. You do not need any computer experience or typing skills. You will use fewer keys than you use on a touch-tone telephone. All response keys are colored and have prominent characters. An illustration of the special keyboard is shown here. You may also use a mouse.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial to the computer and keyboard is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of

your examination time. Sample questions are included following the tutorial so that you may practice using the keys, answering questions, and reviewing your answers.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

EXAMINATION QUESTION EXAMPLE

During the examination, you should press 1, 2, 3, or 4 to select your answer or press "MARK" to mark it for later review. You should then press "ENTER" to record your answer and move on to the next question. A sample question display follows:

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

EXAMINATION REVIEW

The Utah Division of Occupational and Professional Licensing is utilizing the National Interstate Council of State Boards of Cosmetology (NIC) exams. The NIC conducts ongoing analysis and review of their examinations to ensure the examinations accurately measure minimal competency in the required knowledge area.

SCORE REPORTS

You will receive the score report immediately following the completion of the examination. Official score results of the practical examination will be released to your state board within 3 business days after the examination. Please note that passing scores are valid for a period of one year toward Utah licensure.

The score on these examinations are reported as a scaled score, which is a score based on the number of questions you answered correctly that has been converted to a standardized number. The part scores cannot be transferred to a percentage, nor added for overall performance. Each individual part is weighted as to the importance of competence and public protection for entry-level candidates. These weightings then contribute to the total number of questions that must be answered correctly.

You can write to PSI to request a duplicate of your score report.

Passing scores will be accepted by Utah Division of Occupational and Professional Licensing for a period of 1 year after the completion of the examination. Testing scores older than 1 year will not be accepted and the candidate must retest.

TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION

The following suggestions will help you prepare for your examination.

IMPORTANT: Starting April 1, 2008, Mannequins will be required. Live models will not be accepted.

- Planned preparation increases your likelihood of passing.
- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Read study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice. Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes.
 Concentration tends to wander when you study for longer periods of time.

Talking to other candidates or any examiner is strictly prohibited. Failure to comply with any of these conditions will result in you being dismissed immediately, and your actions reported to the proper authorities.
