## EXAMINATIONS BY PSI

This Candidate Information Bulletin provides you with information about the examination and application process for Contractors Licensure in the State of Arizona.

The Arizona Registrar of Contractors (the ROC) has contracted with PSI to conduct its examination program. PSI provides examinations through a network of computer examination centers in Arizona and in many areas throughout the United States. PSI works closely with the State to be certain that examinations meet local as well as national requirements in basic principles and examination development standards.

## GUIDELINES FOR LICENSURE

### HOW TO OBTAIN A LICENSE

Request a licensure packet from the ROC and use the License Classification Requirements form to determine which examination(s) you are required to take.

Upon completion of all licensure requirements, including passing the necessary examination(s), submit a completed licensure application and your **original** score report to the ROC for processing within two years from the date of passing the examination. ## TAKING THE EXAMINATION BY COMPUTER AT A PSI TEST CENTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

### IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

### TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers. The "Function Bar" at the top of the sample question provides mouse-click access to the features available while taking the examination.

## EXAM QUESTION SCREEN

The "Function Bar" at the top of the test question screen provides mouse-click access to the features available while taking the examination.

The screenshot shows a web-based exam interface. At the top, there is a "Function Bar" with icons for Mark, Comments, Goto, Help, and End. Below this, a status bar displays: "Question: 3 of 40", "Answered: 2", "Unanswered: 1", "Marked: 0", "View: All", and "Time Left(Min): 359". The main question area contains the text: "3. What do the stars on the United States of America's flag represent?". Below the question, it says "(Choose from the following options)". There are four radio button options: "1. Presidents", "2. Colonies", "3. States", and "4. Wars". At the bottom of the question area, there are two buttons: "<< Back" and "Next >>".

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

**IMPORTANT:** After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

## EXPERIMENTAL QUESTIONS

In addition to the number of questions per examination, a small number of up to ten "experimental" questions may be administered to candidates during the examinations. These questions will not be scored and the time taken to answer them will not count against examination time. The administration of such non-scored experimental questions is an essential step in developing future licensing examinations.

## EXAMINATION REVIEW

PSI, in cooperation with the ROC, will be consistently evaluating the examinations being administered to ensure that the examinations accurately measure competency in the required knowledge areas. While taking the examination, examinees will have the opportunity to provide comments on any questions. Comments may be entered by clicking on the Comments link on the function bar of the test question screen. These comments will be analyzed by PSI examination development staff. PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. This is the only review of examination materials available to candidates.

## **SCORE REPORTING**

Your score will be given to you immediately following completion of the examination. The following summary describes the score reporting process:

- **On screen** - your score will appear immediately on the computer screen. This will happen automatically at the end of the time allowed for the examination;

- If you **pass**, you will immediately receive a successful notification.
- If you **do not pass**, you will receive a diagnostic report indicating your strengths and weaknesses by examination type with the score report.
- **On paper** - an unofficial score report will be printed at the examination site.

## DUPLICATE SCORE REPORTS

You may request a duplicate score report after your examination by emailing [scorereport@psionline.com](mailto:scorereport@psionline.com) or by calling 800-733-9267.

## **TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION**

The following suggestions will help you prepare for your examination.

- Planned preparation increases your likelihood of passing.
- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Read study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice. Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

## **EXAMINATION REFERENCE MATERIAL AND CONTENT OUTLINE**

If a test question answer could differ because of conflicting information in test reference sources, a legal requirement such as a code, law or regulation overrides any other reference. If two legal requirements appear to conflict, the state-specific code, law or regulation overrides the national one. Information from sources on the test reference list override information from other sources or persons.

## **BUSINESS MANAGEMENT EXAMINATION**

All contractor license classifications **must** take the Business Management examination in addition to any required trade-specific examination.

However, references may not be written in during the examination session. Any candidate caught writing, highlighting, underlining and/or indexing in the references during the examination will be reported to the Arizona Registrar of Contractors. Furthermore, candidates are not permitted to bring in any additional papers (loose or attached) with their approved references. References may be tabbed/indexed with permanent tabs only. (Permanent tabs are defined as tabs that would tear the page if removed). Temporary tabs, (defined as Post-It notes) or other tabs that may be removed without tearing the page) are not allowed and must be removed from the reference before the exam will begin. If you are downloading from the Internet, you may bring this reference into the testing center with you as long as it is bound or stapled. You can have it spiral bound, stapled or you may hole-punch it and put it in a binder.

## **TRADE-SPECIFIC EXAMINATIONS**

In addition to the Business Management examination, you may also be required to pass a second test covering the specific trade for which you are applying, and a third examination for solar. To determine if you are required to pass a trade examination and/or solar examination, refer to the License Classification Requirements form RC-L-206B found on the ROC's Web site at <https://roc.az.gov/>.
