SCHEDULING INFORMATION

Date Scheduled: _____

Name of Scheduler: _____

Date of Exam: _____

Time of Exam: _____

Test Site Location: _____

PURPOSE

To ensure entry-level competence, the Structural Pest Control Board requires an examination to assess the candidate's ability to apply knowledge of pesticide equipment, pesticide mixing and formulation, pesticide application procedures and pesticide label directions to the practice of pest control.

Candidates should also be familiar with the Department of Pesticide Regulations Safety Information Series that covers worker safety; storage, moving and disposal of pesticides; and safety rules for handling pesticides.

EXAMINATIONS BY PSI

The Board has contracted with PSI to conduct its examination program. PSI provides examinations through a network of computer examination centers in California and twenty-two additional nationwide sites.

All questions regarding the scheduling and administration of examinations should be directed to PSI.

EXAMINATION SCHEDULING PROCEDURES

Once you have been approved for examination by the Board, you are responsible for contacting PSI to schedule an appointment to take the examination. You may schedule the examination via the Internet at www.psiexams.com, or by telephone at (877) 392-6422.

- **FIRST TIME EXAMINEES:** Examination eligibility expires, and an application is deemed abandoned, if the applicant fails to sit for examination within six months.
- **RE-EXAMINATION APPLICANTS:** Examination eligibility expires and an applicant becomes ineligible to sit for examination when an applicant fails any written examination and does not retake the examination within six months from the date of that failure.

The PSI examination centers are open for testing during normal working hours of 8:00 AM to 5:00 PM Monday through Friday,

and operating hours on Saturday, except for the following major holidays:

Independence Day	Closed July 4, 2018
Labor Day	Closed September 3, 2018
Thanksgiving	Closed November 22-23, 2018
Christmas	Closed December 24-25, 2018
New Years Day	Closed January 1, 2019
Martin Luther King Jr.	Closed January 21, 2019
Memorial Day	Closed May 27, 2019
Independence Day	Closed July 4, 2019

INTERNET SCHEDULING

You may schedule your examination by completing the online Test Registration Form. The Test Registration Form is available at PSI's website, www.psiexams.com. You may schedule for an examination via the Internet 24 hours a day.

1. Complete the registration form online and submit your information to PSI via the Internet.
2. Upon completion of the online registration form, you will be given the available dates for scheduling your examination.
3. Select a date for examination to complete your registration.
4. Upon successful registration, you will receive a traceable confirmation number.

TELEPHONE SCHEDULING

Call PSI at (877) 392-6422, Monday through Friday between 4:30 am and 7:00 pm, or Saturday-Sunday, between 8:00 am and 2:00 pm, Pacific Time, to schedule your appointment for the examination. Scheduling services are also available via our Telecommunications Device for the Deaf (TDD) by calling (800)735-2929.

CANCELING AN EXAMINATION APPOINTMENT

You may cancel and reschedule an examination appointment without forfeiting your fee *if your cancellation notice is received two (2) days prior to the scheduled examination date*. For example, for a 9:00 a.m. Monday appointment, the cancellation notice would need to be received before 9:00 a.m. on the previous Saturday. To cancel or reschedule, call PSI at (877) 392-6422.

Note: A voicemail or email message is not an acceptable form of cancellation. You must use the PSI Website or call PSI and speak directly to a Customer Service Representative to cancel or reschedule your examination and not forfeit the fee.

MISSED APPOINTMENT OR LATE CANCELLATION

If you miss your appointment, you will not be able to take the examination as scheduled. You will forfeit your examination fee if:

- You do not cancel your appointment 2 days before the scheduled examination date;
- You do not appear for your examination appointment;
- You arrive after examination start time;
- You do not present proper identification when you arrive for the examination.

RE-EXAMINATION

Candidates who fail are eligible to re-take the examination. A Request for Re-examination form will be provided with the score report at the test center, or may be obtained by contacting the Board.

To apply for re-examination, candidates must complete the form and submit it to the Board with the correct fee.

EXAMINATION SITE CLOSING FOR AN EMERGENCY

In the event that severe weather or another emergency forces the closure of an examination site on a scheduled examination date, your examination will be rescheduled. PSI personnel will attempt to contact you in this situation; however, you may check the status of your examination schedule by calling (877) 392-6422. Every effort will be made to reschedule your examination as soon as possible and you will not be penalized. You will be rescheduled at no additional charge.

SPECIAL ACCOMMODATIONS AVAILABLE

All examination sites are physically accessible to individuals with disabilities. Scheduling services are also available via Telecommunications Device for the Deaf (TDD) by calling (800) 735-2929.

The Board and PSI recognize their responsibilities under the Federal Americans with Disabilities Act and the California Fair Employment and Housing Act by providing testing accommodations or auxiliary aids or services for candidates who substantiate the need due to a physical or mental disability or qualified medical condition.

Accommodations will not be provided at the examination site unless prior approval by the Board has been granted. Reasonable, appropriate, and effective accommodations may be requested by submitting a "Request for Accommodation" package to the Board. This package is available by contacting the Board at (916) 561-8704.

REPORTING TO THE EXAMINATION SITE

On the day of the examination, you must arrive at least 30 minutes prior to your scheduled appointment time. This allows time for check-in and identification verification and provides time to familiarize yourself with the examination process. If you arrive late, you may not be admitted to the examination site and you may forfeit your examination registration fee.

REQUIRED IDENTIFICATION AT EXAMINATION SITE

You must provide one of the following valid, non-expired, forms of government-issued identification before you may examine:

- A photographic Driver's License (any state)
- State identification card (any state)
- U.S. military identification
- Valid passport - any country (valid foreign passport with valid record of arrival/departure - Form I-94 or processed for I-551 stamped in a valid foreign passport)
- U.S. government-issued passport card.

All photographs must be recognizable as the person to whom the identification card was issued. The name on the application must match the photographic I.D. card. If you have recently changed your name with the Board, you may want to contact PSI to verify that they have the correct name on file.

If you cannot provide the required identification, you must call (877) 392-6422 at least 3 weeks prior to your scheduled appointment to arrange a way to meet this security requirement. *Failure to provide all of the required identification at the time of the examination without notifying PSI is considered a missed appointment, and you will not be able to take the examination.*

CALIFORNIA LAW SECURITY PROCEDURES

Section 123 of the California Business and Professions Code states: It is a misdemeanor for any person to engage in any conduct which subverts or attempts to subvert any licensing examination or the administration of an examination, including, but not limited to:

- Conduct which violates the security of the examination materials;
- Removing from the examination room any examination materials without authorization;

- The unauthorized reproduction by any means of any portion of the actual licensing examination;
- Aiding by any means the unauthorized reproduction of any portion of the licensing examination;
- Paying or using professional or paid examination-takers for the purpose of reconstructing any portion of the licensing examination;
- Obtaining examination questions or other examination material, except by specific authorization either before, during, or after an examination; or
- Selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered licensing examination.
- Communicating with any other examinee during the administration of a licensing examination.
- Copying answers from another examinee or permitting one's answers to be copied by another examinee.
- Having in one's possession during the administration of the licensing examination any books, equipment, notes, written or printed materials, or data of any kind, other than the examination materials distributed, or otherwise authorized to be in one's possession during the examination.
- Impersonating any examinee or having an impersonator take the licensing examination on one's behalf.

Nothing in this section shall preclude prosecution under authority provided for in any other provision of law. In addition to any other penalties, a person found guilty of violating this section, shall be liable for the actual damages sustained by the agency administering the examination not to exceed ten thousand dollars (\$10,000) and the costs of litigation.

IMPORTANT INFORMATION ABOUT TAKING AN EXAMINATION

1. All candidates will have their thumbprint taken during examination check-in. The thumb print must be matched after candidates return from a restroom break and any time the candidate leaves and returns to the test site after check-in.
2. The temperature in the testing room is maintained at a moderate level. Candidates are advised to layer clothing. Acceptable layered clothing includes lightweight shirts, sweaters, and pullovers without pockets or hoods. These items must be worn upon check-in, while you wait to enter the testing room, and during your initial seating for the examination. If the layered item is removed during the examination, you will be required to store it in the lobby while time continues to count down on your examination. Outerwear (coats, heavy jackets, vests, shawls, scarves, etc.) is not allowed in the testing rooms.
3. There are timing mechanisms available in the testing room and on the computer console to help candidates keep track of time during the test administration. Candidates are not permitted to bring watches or other timekeeping devices into the testing rooms.
4. Only one candidate will be allowed to take a restroom break at a time. Candidates are required to sign out when leaving and returning to the testing room. If a candidate's restroom break takes longer than 5 (five) minutes, a proctor will check on the candidate and will notify the

applicable regulatory entity of the occurrence. The regulatory entity will investigate and take appropriate action.

5. The following is a non-exhaustive list of personal items that are not permitted in the testing rooms:

Purses	Briefcases/daypacks/luggage
Cellular phones	Pagers
Drinks (including water)	Food/candy/snacks/gum
Good luck items	Luggage
Calculators	Reading materials
Textbooks	Notes
Any recording device	Smart devices
Electronic devices	Headphones or earphones/earbuds
Personal pens or pencils	Therapeutic items
Cameras	Over-the-counter medication
Weapons	Fashion scarves
Hats/baseball caps/visors*	Sunglasses**
Bulky, large or noisy jewelry***	Prescription drugs****

**Headwear worn for religious purposes is subject to inspection.*

***Prescription and non-prescription eyeglasses may not be worn for the photo. Eyeglasses subject to inspection.*

****Jewelry that is allowed into the examination room is subject to inspection.*

*****Drugs that are medically necessary during the pendency of the examination may be brought into the examination site, in a container bearing a proper prescription label with the name of the candidate and of the drug; any such medication is subject to examination by a proctor upon check-in.*

Examination proctors will have considerable discretion to refuse permission of clothing and/or items that compromise the integrity or security of the examination.

During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates must return these items to their vehicle or other place of safekeeping. Neither PSI nor the Department of Consumer Affairs will be responsible for the items. Any candidate possessing prohibited items in the testing room will have his or her examination results invalidated, and PSI will notify the appropriate regulatory entity of the occurrence.

6. Shoes must be worn at all times and feet are not permitted on the chairs. Feet must remain on the floor during examinations.
7. Copying any portion of the examination content by any means, or communicating examination content for the purpose of aiding its unauthorized reproduction, whether before, during, or after the examination, is a violation of PSI security policy and existing law. Either one may result in the disqualification or invalidation of examination results, the denial of your license, and may result in criminal prosecution.

8. If a candidate is asked by a proctor to step into the lobby during your examination, the proctor will suspend the candidate's examination, so all remaining test time will be retained.

Only candidates, and those individuals with prior regulatory entity approval, are allowed to be present in the testing sites.

If candidates require that an exception be made to ANY of the abovementioned security procedures, candidates must contact their regulatory entity PRIOR to the date of their examination. The regulatory entity must provide the exception to PSI. NO EXCEPTIONS WILL BE MADE ON THE DAY OF THE EXAMINATION.

TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers.

TEST QUESTION SCREEN

The "function bar" at the top of the sample question provides mouse-click access to the features available while taking the examination.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

EXAMINATION RESULTS

At the end of your examination, you will return to the check-in location and be given a printed report of your score. Business and Professions Code §8560 states that the passing score for the examination is 70 percent. Your examination results are confidential and are released only to you and the Board. To protect your privacy and to maintain the confidentiality of examination results, score information is not given over the telephone.

FAILING SCORE REPORTS

The score report will indicate the candidate's overall score. Along with the score report, you will be given a Re-Examination form to complete and return to the Board if you wish to retake the examination.

PASSING SCORE REPORTS

Along with the score report, you will be given a Licensing Application package to complete and return to the Board. The score report is NOT a license.

ABANDONMENT OF APPLICATION/INELIGIBILITY

The Board considers an application abandoned if a candidate fails to participate in the examination process. According to California Code of Regulations §1941, an applicant who fails to appear for the examination after proper notification forfeits the examination fee unless the applicant requests and is granted a postponement not less than 5 days prior to the examination or is excused by the Board for good cause from complying with this requirement.

An applicant who receives a postponement of not more than 6 months will not be required to file a new application.

THE EXAMINATION

Structural pest control involves the control of household pests and wood-destroying pests and organisms or such other pests which may invade households or structures, including railroad cars, ships, docks, trucks, airplanes, or the contents thereof.

An applicant for applicator licensure must show knowledge in pesticide equipment, pesticide mixing and formulation, pesticide application procedures and pesticide label directions pertaining to Branches 2 (general pest) and 3 (termite).

# of Items	Time Allowed
75	1.5 Hours

Examination Plan (Outline)

I. STRUCTURE INSPECTION AND PEST LOCATION (17%) - This area assesses the candidate's knowledge of signs of pest infestations, conditions conducive to pest entry, harborage, activity, and methods for identifying infestations.
II. TREATMENT METHOD DETERMINATION (22%) - This area assesses the candidate's knowledge of pesticides, types of treatment methods, and factors affecting the suitability of treatment methods.
III. SITE PREPARATION AND TREATMENT APPLICATION (31%) - This area assesses the candidate's knowledge of treatment application methods and procedures for controlling structural pest infestations in residential and commercial sites.
IV. MAINTENANCE OF TREATMENT EFFECTIVENESS (10%) - This area assesses the candidate's knowledge of methods for maintaining consistent levels of pest control, post-treatment inspection methods, and follow-up treatments.
V. SAFETY PROCEDURES FOR HANDLING PESTICIDES AND MATERIALS (20%) - This area assesses the candidate's knowledge of work methods, laws, and regulations for the safe use of pesticides, pest control materials and equipment, and pesticide dangers to consumers.

*Percentages are approximate

CONTENT SPECIFICATIONS

The content specifications for the examination are based upon an occupational analysis of Applicator practice conducted by the Department of Consumer Affairs. The occupational analysis involved interviews with practitioners, focus groups to validate the tasks and knowledge identified, a survey questionnaire, which asked licensed practitioners to rate the importance of tasks and knowledge identified in the interviews, an analysis of the ratings, and development of content specifications based on the ratings.

- I. **STRUCTURE INSPECTION AND PEST LOCATION (17%)** - This area assesses the candidate's knowledge of signs of pest infestations, conditions conducive to pest entry, harborage, activity, and methods for identifying infestations.

<i>Subarea</i>	<i>Job Tasks</i>	<i>Associated Knowledge</i>
A. LOCATION OF PEST PROBLEMS (9%)	<p>T1. Perform visual inspection of structure for signs of pest activity using information gathered from consumer.</p> <p>T2. Determine pest source of entry or nesting site by inspecting locations typically associated with target pest.</p> <p>T3. Perform visual inspection of structure <i>interior</i> to identify conditions that invite pest harborage and pest entry.</p> <p>T4. Perform visual inspection of structure <i>exterior</i> to identify conditions that invite pest harborage and pest entry.</p>	<p>K1. Knowledge of sanitation practices that invite pest entry and infestation.</p> <p>K2. Knowledge of interior and exterior storage practices that invite pest harborage.</p> <p>K3. Knowledge of typical harborage areas for structural pests in different life cycle stages.</p> <p>K4. Knowledge of vegetation and associated moisture conditions that invite pest harborage.</p> <p>K5. Knowledge of exterior objects located near structures that invite pest harborage.</p> <p>K6. Knowledge of structural deficiencies and construction practices that invite pest entry and harborage.</p> <p>K8. Knowledge of structural pest dietary staples and preferences.</p> <p>K105. Knowledge of common signs of wood-pest infestations and infections.</p>
B. EVALUATION OF PEST PROBLEMS (8%)	<p>T5. Evaluate pet care practices and pet activity patterns to identify conditions that invite pest harborage and pest entry.</p> <p>T6. Place monitoring devices in areas of expected pest activity to collect pest sample</p> <p>T7. Evaluate signs of pest activity to determine presence or absence of pest infestation</p>	<p>K7. Knowledge of pest activity and structure conditions consistent with pest infestation.</p> <p>K9. Knowledge of pet care practices and pet activity patterns that increase likelihood of pest entry and harborage.</p> <p>K10. Knowledge of the effect of temperature and humidity on pest activity.</p> <p>K11. Knowledge of procedures for placement of monitoring devices in residential and commercial sites.</p>

II. **TREATMENT METHOD DETERMINATION (22%)** - This area assesses the candidate's knowledge of pesticides, types of treatment methods, and factors affecting the suitability of treatment methods.

<i>Subarea</i>	<i>Job Tasks</i>	<i>Associated Knowledge</i>
A. TREATMENT OPTIONS (10%)	<p>T8. Determine level of infestation and range of pest activity by evaluating number of pests caught in monitoring devices.</p> <p>T9. Explain to consumer toxicity of different treatment options and time span required for reduction of pest activity.</p> <p>T10. Explain to consumer treatment options compatible with specific occupant conditions or concerns (e.g., health, age, pets, wildlife, etc.).</p> <p>T11. Explain to consumer potential for noticeable residue and/or odor associated with application of pesticides.</p> <p>T12. Determine application method by evaluation of target pest location and activity patterns.</p> <p>T13. Determine if mechanical treatment methods (e.g., baits, traps, glue boards) can be used by evaluating target pest activity patterns, occupant activity patterns, and product label restrictions</p>	<p>K12. Knowledge of chemical families of pesticides used for structural pest control.</p> <p>K14. Knowledge of level of toxicity to humans of chemical families used for structural pest control.</p> <p>K15. Knowledge of occupant conditions (e.g., age, health) with potential for increased risk of sensitivity to pesticides.</p> <p>K16. Knowledge of treatment methods for avoiding pesticide exposure to beneficial pests and wildlife.</p> <p>K17. Knowledge of conditions suitable for bait station and trap use in residential and commercial sites.</p> <p>K19. Knowledge of pesticide application methods suitable for different treatment locations.</p> <p>K21. Knowledge of pesticide application methods suitable for different pest activity patterns.</p> <p>K23. Knowledge of residues associated with different pesticide formulations on different surfaces.</p> <p>K24. Knowledge of the effects of temperature, rate of dilution, and ventilation on pesticide odor.</p>
<i>Subarea</i>	<i>Job Tasks</i>	<i>Associated Knowledge</i>
B. TREATMENT SPECIFICATIONS (12%)	<p>T14. Determine pesticide formulation by evaluation of target pest and structure surface (e.g., texture, type, moisture, temperature), and ventilation or wind conditions of treatment areas.</p> <p>T15. Determine rate of application and pesticide dilution ratio by evaluating label information and square footage or cubic footage of area to be treated.</p>	<p>K13. <i>Knowledge of mode of action on pests of chemicals used for structural pest control.</i></p> <p>K20. <i>Knowledge of pesticide formulations suitable for different surfaces and different pests.</i></p> <p>K22. <i>Knowledge of procedures for determining rate of application and pesticide dilution ratio.</i></p> <p>K113. <i>Knowledge of different types of foundations associated with different types of structures.</i></p>

III. **SITE PREPARATION AND TREATMENT APPLICATION (31%)** - This area assesses the candidate's knowledge of treatment application methods and procedures for controlling structural pest infestations in residential and commercial sites.

<i>Subarea</i>	<i>Job Tasks</i>	<i>Associated Knowledge</i>
A. PRETREATMENT PREPARATION (11%)	T16. Perform visual inspection of treatment area to identify objects/areas that could be damaged or become health or fire hazards if treated with pesticides.	K25. Knowledge of requirements for area preparation for different treatment applications.
	T17. Identify structural conditions (e.g., location of air conditioner, protruding nails) that could cause injury to self during treatment application.	K26. Knowledge of objects or conditions in or around structures that could be hazardous to applicators during pesticide application.
	T18. Select alternative application method based on temperature, humidity, and/or wind conditions	K29. Knowledge of effects of wind conditions on performance of pesticide application equipment.
	T19. Label the service container (e.g. B&G, backpack, and power sprayer) so it corresponds to pesticide inside container.	K31. Knowledge of types of, and procedures for, use of personal protective equipment.
	T20. Select and use personal protective equipment in compliance with pesticide label instructions to prevent exposure to pesticides and materials.	K33. Knowledge of interior and exterior objects/areas subject to potential property damage, health, and /or fire hazards from pesticide application.
	T101. Locate gas lines that could cause personal injury or property damage.	K107. Knowledge of methods to locate source of gas lines.
		K108. Knowledge of methods to locate water lines.
		K109. Knowledge of methods to locate drainage lines and drains.
		K110. Knowledge of methods to locate water meter and main shutoff.
		K111. Knowledge of methods to locate electrical power sources and breaker box.
	K120. Knowledge of regulations pertaining to labeling service containers	
	T102. Locate water lines that could damage property.	
	T103. Locate water sources and shutoffs.	
	T104. Locate electrical power sources that could be used for application.	
	T114. Prepare area for treatment application by removing hazardous objects and remedying adverse conditions.	

<i>Subarea</i>	<i>Job Tasks</i>	<i>Associated Knowledge</i>
B. TREATMENT APPLICATION (20%)	<p>T21. Set traps or glue boards according to manufacturer's instructions in areas of expected rodent activity to control rodents.</p> <p>T22. Apply bait by distributing into cracks and crevices with gel gun or syringe or by placement of bait station.</p> <p>T23. Spread granules with broadcaster around exterior of structure to treat pests in vegetation areas or during wet season.</p>	<p>K27. Knowledge of application of pesticide label information to select pesticides for spot treatment.</p> <p>K28. Knowledge of procedures for bait station and trap placement in residential and commercial sites.</p> <p>K30. Knowledge of procedures for application of pesticides around vegetable gardens and other plants.</p> <p>K32. Knowledge of types of, and procedures for, use of pesticide application equipment.</p> <p>K115. Knowledge of chemical control measures for termite infestations.</p>
	<p>T24. Inject pesticide into wall voids with duster or by drilling holes and spraying with space sprayer.</p> <p>T25. Apply pesticide in cracks and crevices with crack and crevice injection equipment or hand sprayer.</p> <p>T26. Apply pesticide around doorframes, thresholds, and baseboards with crack and crevice injection equipment or hand sprayer.</p> <p>T27. Apply pesticide with compressed air hand sprayer or space sprayer to treat pests in carpeted areas.</p> <p>T28. Apply pesticide with power sprayer to exterior to control active pest infestation.</p> <p>T118. Apply chemical treatments to control termite infestations.</p> <p>T119. Apply chemical treatments to control wood-destroying fungal infestations.</p>	<p>K116. Knowledge of chemical control measures for non-termite wood pest infestations.</p> <p>K117. Knowledge of chemical control measures for wood-destroying fungal infestations.</p>

IV. MAINTENANCE OF TREATMENT EFFECTIVENESS (10%) - This area assesses the candidate's knowledge of methods for maintaining consistent levels of pest control, post-treatment inspection methods, and follow-up treatments.

<i>Subarea</i>	<i>Job Tasks</i>	<i>Associated Knowledge</i>
A. CONSUMER MAINTENANCE PROCEDURES (5%)	T29. Inform consumer of procedures to be followed after treatment to maintain treatment effectiveness.	K34. Knowledge of consumer actions that reduce effectiveness of pesticide treatment.
	T30. Inform consumer of time span required for reduction of pest activity.	K35. Knowledge of sanitation conditions that reduce effectiveness of pesticide treatment.
	T31. Inform consumer of expected residual of treatment.	K37. Knowledge of moisture and temperature conditions that reduce effectiveness of pesticide treatment.
	T32. Inform consumer of pest activity requiring notification to company.	K38. Knowledge of time span required for pest control using different treatment methods.
	T36. Identify and inform consumer of structure points that should be repaired to exclude pests.	K39. Knowledge of pesticide residual associated with different treatment methods.
		K40. Knowledge of pest activity expected in response to different treatments.
		K44. Knowledge of methods for identifying structural pest entry points into structure.
B. FOLLOW-UP TREATMENT (5%)	T33. Examine bait stations and traps periodically to determine effectiveness of bait and placement locations.	K36. Knowledge of pest harborage debris (e.g., egg casings, fecal matter, nesting material) that could cause re-infestation or other pest problems.
	T34. Perform visual inspection of structure for evidence of pest activity to determine location for follow-up treatment.	K41. Knowledge of frequency required for monitoring bait stations and traps.
		K42. Knowledge of conditions indicating ineffective bait and trap placement.
	T35. Determine sites(s) for follow-up treatment by gathering information from consumer about remaining pest activity.	K43. Knowledge of methods and procedures for performing follow-up pesticide treatments.
	T37. Apply periodic exterior pesticide treatment to provide barrier against pest entry into interior.	K45. Knowledge of pesticides and formulations suitable for exterior barrier treatment.

V. SAFETY PROCEDURES FOR HANDLING PESTICIDES AND MATERIALS (20%) - This area assesses the candidate’s knowledge of work methods, laws, and regulations for the safe use of pesticides, pest control materials and equipment, and pesticide dangers to consumers.

<i>Subarea</i>	<i>Job Tasks</i>	<i>Associated Knowledge</i>
A. STORAGE, HANDLING, AND TRANSPORTATION (10%)	<p>T38. Implement safety procedures for handling pesticides and materials to prevent and contain pesticide spills.</p> <p>T40. Maintain awareness of potential adverse reactions to pesticides in self and others.</p> <p>T42. Perform visual inspection of service vehicle to ensure pesticide container lids are secure, pesticide labels are readable, and storage area is locked.</p> <p>T48. Dispose of empty pesticide containers according to manufacturer’s specifications and county regulations to prevent contamination of groundwater and non-target exposure to pesticides.</p>	<p>K49. Knowledge of procedures for containing spilled liquid pesticides.</p> <p>K50. Knowledge of symptoms of oral, dermal, and respiratory overexposure to applied pesticides and materials.</p> <p>K51. Knowledge of laws and regulations related to reporting pesticide spills.</p> <p>K52. Knowledge of procedures for disposal of absorbent material used to soak up pesticide spills.</p> <p>K53. Knowledge of procedures for containing and removing spilled dry materials.</p> <p>K54. Knowledge of procedures for prevention of pesticide spills.</p> <p>K56. Knowledge of procedures for disposal of used pesticide containers.</p> <p>K58. Knowledge of laws and regulations related to storage, disposal, and transportation of pesticides.</p>
B. SAFETY AND EQUIPMENT INSPECTION (3%)	<p>T39. Clean and maintain application and personal protective equipment as required by manufacturer’s instructions.</p> <p>T41. Perform visual inspection of service vehicle to ensure application and personal protective equipment is present and stored according to manufacturer’s recommendations.</p> <p>T43. Perform visual inspection of service vehicle to ensure change of clothing and soap and towels are present, and name of emergency medical facility is posted.</p>	<p>K47. Knowledge of procedures for cleaning and maintenance of application and personal protective equipment.</p> <p>K48. Knowledge of procedures for preventing malfunction of application and personal protective equipment.</p> <p>K55. Knowledge of reference sources for first-aid and emergency procedures for overexposure of pesticides to humans or animals.</p> <p>K121. Knowledge of required contents of service vehicle.</p>

<i>Subarea</i>	<i>Job Tasks</i>	<i>Associated Knowledge</i>
C. CONSUMER NOTIFICATION (7%)	<p>T44. Provide consumer with written documentation of procedures to be followed before and after treatment to reduce likelihood of nontarget exposure to pesticides.</p>	<p>K46. Knowledge of application of safety precautions on pesticide labels to prevent overexposure of pesticides to self and others.</p> <p>K57. Knowledge of laws and regulations related to consumer notification of pesticide application.</p> <p>K100. Knowledge of contents of pest treatment reports.</p> <p>K106. Knowledge of procedures to notify consumer and persons in adjacent areas about planned pesticide application.</p>
	<p>T45. Provide consumer with written documentation of product name, active ingredient, application site, and quantity applied for consumer protection.</p> <p>T46. Provide consumer with pesticide information notice to ensure consumers are informed of potential adverse reactions to pesticides and agencies to contact.</p> <p>T47. Determine consumer re-entry time after pesticide application by evaluating product label information and time treatment applied.</p> <p>T112. Explain to consumer and persons in adjacent areas possible hazards associated with chosen treatment.</p>

SAMPLE QUESTIONS

1. What formulation of pesticide is more practical for use in sensitive areas such as zoos or hospitals?
 - A. Micro-encapsulated solution
 - B. Dusts
 - C. Bait
 - D. Wettable powders
2. What is the most common route of entry into the body for pesticides?
 - A. Otic
 - B. Dermal
 - C. Ocular
 - D. Oral
3. Which of the following type of gloves must be worn when mixing pesticides?
 - A. Fabric lined gloves
 - B. Any plastic gloves
 - C. Rubber or neoprene gloves
 - D. Utility gloves

Answers: CBC

**Structural Pest Control Board
2005 Evergreen Street, Suite 1500
Sacramento, California 95815**

**STATE OF CALIFORNIA
NOTICE OF ELIGIBILITY**

You are eligible to participate in the written examination for licensure. This is the **ONLY** notice of eligibility you will receive from the Board for this examination. Your address label contains important date information. In the upper left corner of the address label (above your name) is the date your application for examination was approved; following that is the date by which you must take your examination. You must take the written examination by the date specified on the label, or you will be required to re-apply.

This handbook provides important information regarding written examination procedures and content. To schedule your examination, please refer to the instructions in this handbook.
