TAKING THE EXAMINATION

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers.

TEST QUESTION SCREEN

The “Function Bar” at the top of the test question provides mouse-click access to the features available while taking the examination.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

SCORE REPORTING

Your score will be given to you immediately following completion of the examination. The following summary describes the score reporting process:

- If you **pass**, you will receive a successful score report.
- If you **do not pass**, you will receive a diagnostic report indicating your strengths and weaknesses by examination type on the score report.

You may request a duplicate score report after your examination by emailing scorereport@psionline.com or by calling 800-733-9267.

EXPERIMENTAL ITEMS

In addition to the number of examination items specified in the “Examination Content Outlines”, a small number (5 to 10) of “experimental” questions may be administered to candidates during the examinations. These questions will not be scored. The administration of such unscored, experimental questions is an essential step in developing future licensing examinations.

WRITTEN EXAMINATION CONTENT OUTLINES

For written examination questions or concerns, please email cosmetology@psionline.com.

The examination content outlines have been prepared and are periodically updated by committees of professionals who are subject matter experts in cosmetology practice, instruction, and regulatory issues. The examination content outlines identify areas of importance to licensees in order for them to perform their duties to the public in a competent and legally responsible manner.

Use the outline as a guide for pre-examination review of reference material. The outline lists the topics that are on the examination and the number of questions for each topic. Do not schedule your examination until you are familiar with the topics on the outline.
