This allows time for check-in and identification verification and provides time to familiarize yourself with the examination process. If you arrive late, you may not be admitted to the examination site and you may forfeit your examination registration fee. Even though candidates will be thumb printed, you are still required to comply with any identification requirements established by the appropriate regulatory entity.

IMPORTANT INFORMATION ABOUT TAKING AN EXAMINATION

1. All candidates will have their thumbprint taken during examination check-in and re-entry into the testing room after an approved absence. If a candidate passes the examination, the thumbprint record will be destroyed. If a candidate abandons his or her application for licensure, as determined by the appropriate regulatory authority, the thumbprint will also be destroyed. If a candidate is unsuccessful, the thumbprint record will be retained by PSI to ensure proper identification on any subsequent examination attempts. If the thumbprint doesn't match upon exit and re-entry, the candidate shall be disqualified from the examination, his or her test results invalidated, and the appropriate regulatory entity will be notified of the occurrence. The taking of the thumbprint is an additional measure to enhance examination security. The Department's Office of Examination Resources shall ensure that the appropriate safeguards for the storage and destruction of the thumbprint records are in place.
2. The temperature in the testing room is maintained at a moderate level. Candidates are advised to layer clothing. Acceptable layered clothing includes lightweight shirts, sweaters, and pullovers without pockets or hoods. These items must be worn upon check-in, while you wait to enter the testing room, and during your initial seating for the examination.
3. There are timing mechanisms available at the test site and on the computer console to help candidates keep track of time during the test administration. Watches or other timekeeping devices are not permitted in the examination rooms.
4. Only one candidate will be allowed to take a restroom break at a time. Candidates are required to sign out when you leave the room and when you return. If a candidate's restroom break takes longer than 5 (five) minutes, a proctor will check on the candidate and will notify the applicable regulatory entity of the occurrence, which will take appropriate action.
5. The following items are not permitted in the examination rooms:
 - Cellular telephones, personal digital assistants (PDAs), recording devices, cameras, pagers, purses, notebooks, notebook computers, reference or readings material, music players, radios, electronic games, calculators, or briefcases.

 - Hats, baseball caps, or visors (with the exception of religious apparel), coats, shawls, hooded clothing, heavy jackets or overcoats.

During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates

shall return these items to their vehicle or other place of safekeeping. Neither PSI, nor the Department of Consumer Affairs, shall be responsible for the items. Any candidate possessing the prohibited items in the examination room shall have his or her test results invalidated, and PSI shall notify the appropriate regulatory entity of the occurrence.

6. Copying or communicating examination content is a violation of PSI security policy and existing law. Either one shall result in the disqualification or invalidation of examination results, the denial of your license, and may subject the candidate to criminal prosecution.

The score report will indicate the candidate's overall score and grade, including the number of items answered correctly. It also reveals how the candidate performed on each major section of the test as defined by the LCSW Examination Plan. The number correct in each content area is displayed. The primary purpose in providing a subscore for each part of the examination is to guide candidates in areas requiring additional preparation for re-testing.

ABANDONMENT OF APPLICATION/INELIGIBILITY

STUDY MATERIAL AND COURSES

The LCSW Law and Ethics Examination outline contained in this handbook is the official standard for the material that will be covered on the examination. It is important for candidates to study the *Examination Items* section of this handbook and the examination outline. Should the examination outline or format change, ample notice will be provided and updates posted on the Board's Web site at www.bbs.ca.gov.

Candidates are encouraged to trust in and use their clinical education, experience, and judgment as a basis for responding to examination items. Examination preparation courses are not necessary for success in the examination, and are not a substitute for education and experience.

Should you decide to use examination preparation course materials or workshops, we strongly encourage you to become an informed consumer prior to purchase and to consider the impact that incorrect information could have on your examination performance.

The BBS does not supply examination preparation providers with confidential examination material. Additionally, it is unlawful for candidates to provide information regarding examination content to anyone.

LCSW CALIFORNIA LAW AND ETHICS EXAMINATION PLAN

The development of an examination program begins with an occupational analysis to identify the tasks performed in a profession and the knowledge required to perform those tasks. The results of the occupational analysis form the basis for the licensing examination and establish a link between the content of examination and the competencies required for practice. The Department of Consumer Affairs' Examination Validation Policy requires an occupational analysis be performed every three to seven years. The most recent occupational analysis for the LCSW Law and Ethics examination program was conducted in 2014.

The occupational analysis began with an in-depth analysis of the laws and ethical standards that apply to professional LCSW practice. Multiple panels were conducted with licensed practitioners who served as subject matter experts to develop and refine task and knowledge statements that define the legal and ethical performance of LCSWs in independent practice. In addition, these panels organized the task and knowledge statements into content areas and sections and determined the weighting for each content area and section.

The results of the occupational analysis established the content of the new examination outline based on the legal and ethical tasks and knowledge required for independent practice.

The LCSW Law and Ethics examination plan consists of two content areas: Law and Ethics. Each of these content areas has three sections (see examination outline). **It is important that candidates prepare for the examination by studying the examination plan.**

EXAMINATION DEVELOPMENT

The LCSW Law and Ethics Examination is developed and maintained by the Office of Professional Examination Services (OPES), a division of the Department of Consumer Affairs. OPES staff are test validation and development specialists who are trained to develop and analyze occupational licensing examinations.

The development process involves LCSW practitioners who serve as subject matter experts (SMEs). SMEs are trained by OPES staff in established examination development processes and measurement methodologies. The cooperative efforts among these members of the LCSW profession, OPES, and the BBS are necessary to achieve both the measurement and content standards for examination construction.

ESTABLISHING THE PASSING STANDARDS

The LCSW Law and Ethics Examination measures the legal and ethical competencies required for practice. It is designed to measure those competencies at a level that SMEs agree is the minimum acceptable level for performance in the profession.

To establish pass/fail standards for each version of the Law and Ethics Examination, a criterion-referenced methodology is used. The intent of this methodology is to differentiate between a qualified and unqualified candidate. The passing score is based on minimum competence criterion that are defined in terms of the actual behaviors that qualified practitioners would perform if they possessed the knowledge necessary to perform in a legal and ethical manner.

Using a criterion-referenced methodology to determine the passing standard, a panel of SMEs considers various factors that contribute to minimum acceptable competence for practice, such as prerequisite qualifications (e.g., education, training, and experience); the difficulty of the issues addressed in each multiple-choice item; and public health and safety issues. By adopting a criterion-referenced passing score, the Board applies the same minimum competence standards to all candidates.

Because each version of the examination varies in difficulty, an important advantage of the criterion-referenced methodology is that the passing score can be modified to reflect subtle differences in difficulty from one examination to another, providing safeguards to both the candidate and the consumer.

A new examination version is implemented a minimum of four times per year to maintain examination security and the integrity of the licensing process.

EXAMINATION ITEMS

The LCSW Law and Ethics examination is comprised of 75 multiple-choice items. The examination may contain up to 25 pretest items. Pre-testing allows performance data to be gathered and evaluated before the items are scoreable on an examination. These pre-test ("experimental") items will be distributed throughout the examination and WILL NOT be counted for or against the examination score. Pretest items WILL NOT be identified to candidates.

All of the scoreable items in the Law and Ethics Examination have been written and reviewed by licensed practitioners who served as SMEs. Items are based on the practice-related task and knowledge statements contained in the examination plan and are supported by reference materials. Statistical analyses have been performed on scoreable items to ensure measurement standards are met.

There is only one correct answer for each item. The 'incorrect' answers are typically common errors and misconceptions, true but not relevant statements, or incorrect statements. There are no 'trick' questions in the examination.

Candidates will have 90 minutes to complete the examination.
