EXAMINATIONS BY PSI

This Candidate Information Bulletin provides you with information about the examination and application process for becoming licensed as a contractor in the State of Nevada.

Nevada State law requires contractors to be licensed and regulated by the Nevada State Contractors' Board. Eligibility for examination is determined by the Board.

The State Contractors' Board has contracted with PSI Services LLC (PSI) to conduct its examination program. PSI provides examinations through a network of computer examination centers in Nevada. PSI works closely with the State to be certain that examinations meet local as well as national requirements in basic principles and examination development standards.

HOW TO OBTAIN A LICENSE

Visit www.nscb.nv.gov to complete the online application form or download the application packet. Questions concerning the application process should be directed to the Nevada State Contractors Board.

If the Board accepts your qualifications to register for an examination, the Board will mail you a Candidate Eligibility letter, along with the Candidate Information Bulletin, which contains the PSI Registration Form and instructions for selecting an examination date.

Each applicant is required to submit a set of fingerprints for the purpose of conducting a state and national fingerprint-based criminal history record.

All questions and requests for information about examinations should be directed to PSI.

PSI Services LLC
3210 E Tropicana
Las Vegas, NV 89121
(855) 205-5827

<https://test-takers.psiexams.com/nvcon>

Upon passing the examination, PSI will forward your results to the Board for processing.

EXAMINATION SCHEDULING PROCEDURES

FEES AND ELIGIBILITY

The following fee table lists the applicable fee for each examination. The fee is for each registration, whether you are taking the examination for the first time or repeating. A candidate who tests unsuccessfully must wait 2 weeks before retaking each portion. If you fail the third time, your application becomes void and you must re-apply directly with the Nevada State Contractors' Board.

Note: The \$140 fee is only applicable if the 2nd exam is the CMS. If you are taking 2 trades, e.g., C3 and C4, they would be \$95 per exam.

EXAMINATION FEES

One Examination Portion	\$95
Two Examination Portions	\$140

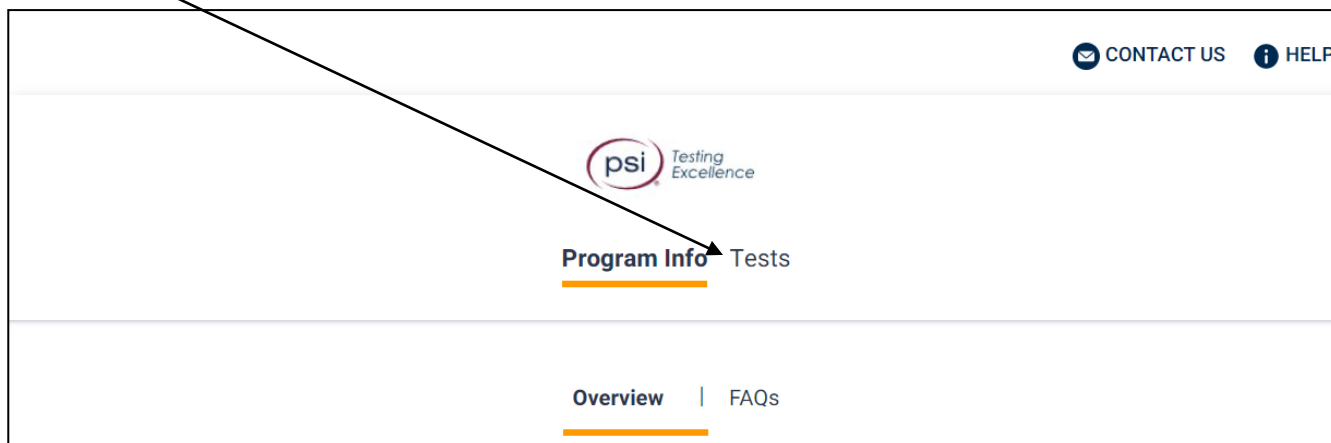

NOTE: REGISTRATION FEES ARE NOT REFUNDABLE OR TRANSFERABLE. REGISTRATION FEES WILL EXPIRE ON THE SAME DATE AS YOUR ELIGIBILITY EXPIRATION DATE.

ONLINE (<https://test-takers.psiexams.com/nvcon>)

For the fastest and most convenient examination scheduling process, register for your examinations online by accessing PSI's registration Website: [Click Here](#) or on the email confirmation you received from PSI.

1. Select **TESTS** to create an account.

2. Select the examination and you are ready to create an account. Select **LOGIN/REGISTER**.

To continue the booking process and schedule your test, you must login or create an account.

LOGIN/REGISTER

3. You will be prompted to **CREATE AN ACCOUNT** with PSI.

The first and last name must match exactly with your current, valid, government-issued ID.

TELEPHONE

To speak with a Customer Service Representative, call (855) 205-5827, Monday through Friday between 4:30 am and 7:00 pm, or Saturday-Sunday between 6:00 am and 2:30 pm, Pacific Time. To register by phone, you need a valid VISA, MasterCard, American Express or Discover.

RESCHEDULING AN EXAMINATION

A candidate who tests unsuccessfully must wait 2 weeks before retaking the examination. It is not possible to make a new examination appointment on the same day you have taken an examination; this is due to processing and reporting scores. A candidate who tests unsuccessfully on a Wednesday can call the next day, Thursday to reschedule, however may not retest for 2 weeks from the date of failure. You may reschedule at <https://test-takers.psiexams.com/nvcon>. Or call PSI at (855) 205-5827.

CANCELING AN EXAMINATION APPOINTMENT

You may cancel and reschedule an examination appointment without forfeiting your fee if your *cancellation notice is received 2 days before the scheduled examination date*. For example, for a Monday appointment, the cancellation notice would need to be received on the previous Saturday. You may call PSI at (855) 205-5827.

Note: A voice mail message is not an acceptable form of cancellation. Please use the PSI Website or call PSI and speak to a Customer Service Representative.

MISSED APPOINTMENT OR LATE CANCELLATION

Your registration will be invalid, you will not be able to take the examination as scheduled, and you will forfeit your examination fee, if you:

- Do not cancel your appointment 2 days before the scheduled examination date;
- Do not appear for your examination appointment;
- Arrive after examination start time;
- Do not present proper identification when you arrive for the examination.

EXAM ACCOMMODATION

All PSI examination centers are equipped to provide access in accordance with the Americans with Disabilities Act (ADA) of 1990, and exam accommodations will be made in meeting a candidate's needs. A candidate with a disability or a candidate who would otherwise have difficulty taking the examination should request for alternative arrangements by [Clicking Here](#).

Candidates granted accommodation in accordance with the ADA, **MUST** schedule their examination by telephone and speak directly with a PSI registrar.

EXAMINATION SITE CLOSING FOR AN EMERGENCY

In the event that severe weather or another emergency forces the closure of an examination site on a scheduled examination date, your examination will be rescheduled. PSI personnel will attempt to contact you in this situation.

However, you may check the status of your examination schedule by calling (855) 205-5827. Every effort will be made to reschedule your examination at a convenient time as soon as possible.

EXAMINATION SITE LOCATIONS

LAS VEGAS

3210 East Tropicana Avenue

Las Vegas, Nevada 89121

From I-15 - Exit East on Tropicana, travel approximately 4 miles, turn left on Mojave, turn right into the parking lot.

From I-95 - Exit West on Tropicana, travel approximately 1 mile, turn right on Mojave, turn right into the parking lot.

From I-215 - Exit at McCarran Airport, go through the airport tunnel. Take the Airport Bypass towards Swenson St. Turn right on Tropicana, travel East approximately 2 miles, turn left on Mojave, turn right into the parking lot.

RENO

Brainseed Testing Services

5250 Neil Road Suite 110

Reno, NV 89502

From I-580 take exit 63 to the S. Virginia St., then turn left on the McCarran Blvd, then left on to Neil Road. The testing centers will be on your right.

ELKO

225 Silver Street Ste 102

Elko, Nevada 89801

From I-80, take the Mountain City exit towards downtown Elko, exit #301. Turn right on Mountain City and continue on Mountain City Highway. Continue on Silver Street until you reach the destination.

Additionally, PSI has examination centers in many other regions across the United States. You may take this examination at any of these locations. Once you have paid for the examination, enter your zip code and a list of the testing sites closest to you will appear.

REPORTING TO THE EXAMINATION SITE

On the day of the examination, you should arrive at least 30 minutes before your appointment. This extra time is for sign-in, identification, and familiarizing you with the examination process. *If you arrive late, you may not be admitted to the examination site and you will forfeit your examination registration fee.*

REQUIRED IDENTIFICATION AT EXAMINATION SITE

Candidates need to provide two (2) forms of identification.

Candidates must register for the exam with their LEGAL first and last name as it appears on their government issued identification. All required identification below must match the first and last name under which the candidate is registered. Candidates are required to bring two (2) forms of

valid (non-expired) signature bearing identification to the test site.

PRIMARY IDENTIFICATION (with photo) - Choose One

- State issued driver's license
- State issued identification card
- US Government Issued Passport
- US Government Issued Military Identification Card
- US Government Issued Alien Registration Card
- Canadian Government Issued ID

NOTE: ID must contain candidate's photo, be valid and unexpired.

SECONDARY IDENTIFICATION - Choose One

- Credit Card (must be signed)
- Social Security Card
- US issued Birth Certificate with Raised Seal

NOTE: Student ID and employment ID are NOT acceptable forms of identification.

If the candidate fails to bring proper identification or the candidate names do not match, the candidates will not be allowed to test, and their examination fee will not be refunded.

SECURITY PROCEDURES

- Only non-programmable calculators that are silent, battery-operated, do not have paper tape printing capabilities, and do not have a keyboard containing the alphabet will be allowed in the examination site.
- All personal belongings of candidates should be placed in the secure storage provided at each site prior to entering the examination room. Personal belongings include, but are **not limited to**, the following items:
 - Electronic devices of any type, including cellular / mobile phones, recording devices, electronic watches, cameras, pagers, laptop computers, tablet computers (e.g., iPads), music players (e.g., iPods), smart watches, radios, or electronic games.
 - Bulky or loose clothing or coats that could be used to conceal recording devices or notes. For security purposes outerwear such as, but not limited to: open sweaters, cardigans, shawls, scarves, hoodies, vests, jackets and coats are not permitted in the testing room. **In the event you are asked to remove the outerwear, appropriate attire, such as a shirt or blouse should be worn underneath.**
 - Hats or headgear not worn for religious reasons or as religious apparel, including hats, baseball caps, or visors.
 - Other personal items, including purses, notebooks, reference or reading material, briefcases, backpacks, wallets, pens, pencils, other writing devices, food, drinks, and good luck items.
- Person(s) accompanying an examination candidate may not wait in the examination center, inside the building or on the building's property. This applies to guests of any nature, including drivers, children, friends, family, colleagues or instructors.
- No smoking, eating, or drinking is allowed in the examination center.
- During the check in process, all candidates will be asked if they possess any prohibited items. Candidates may also be asked to empty their pockets and turn them out for the proctor to ensure they are empty. The proctor may

also ask candidates to lift up the ends of their sleeves and the bottoms of their pant legs to ensure that notes or recording devices are not being hidden there.

- Proctors will also carefully inspect eyeglass frames, tie tacks, or any other apparel that could be used to harbor a recording device. Proctors will ask to inspect any such items in candidates' pockets.
- If prohibited items are found during check-in, candidates shall put them in the provided secure storage or return these items to their vehicle. PSI will not be responsible for the security of any personal belongings or prohibited items.
- Any candidate possessing prohibited items in the examination room shall immediately have his or her test results invalidated, and PSI shall notify the examination sponsor of the occurrence.
- Any candidate seen giving or receiving assistance on an examination, found with unauthorized materials, or who violates any security regulations will be asked to surrender all examination materials and to leave the examination center. All such instances will be reported to the examination sponsor.
- Copying or communicating examination content is violation of a candidate's contract with PSI, and federal and state law. Either may result in the disqualification of examination results and may lead to legal action.
- Once candidates have been seated and the examination begins, they may leave the examination room only to use the restroom, and only after obtaining permission from the proctor. Candidate will not receive extra time to complete the examination.

TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions and reviewing your answers.

TEST QUESTION SCREEN

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

NON-SCORED QUESTIONS

Your examination contains non-scored questions. The use of such questions is an essential step in developing accurate future examinations. These questions will NOT be scored and NOT timed unless specified in the Content Outlines section of this Bulletin.

EXAMINATION REVIEW

PSI, in cooperation with the Nevada State Contractors' Board, will be consistently evaluating the examinations being administered to ensure that the examinations accurately measure competency in the required knowledge areas. Comments may be entered on the computer keyboard during the examination by clicking the Comments button on the function bar of the test question screen.

Your comments regarding the questions and the examinations are welcomed. Comments will be analyzed by PSI examination development staff. While PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. If a discrepancy is found during the comment review, PSI and the department may re-evaluate candidates results and adjust them accordingly. This is the only review of examination materials available to applicants.

SCORE REPORTING

Your score will be given to you immediately following completion of the examination. The following summary describes the score reporting process:

- If you **pass**, you will receive a successful score report.
- If you **do not pass**, you will receive a diagnostic report indicating your strengths and weaknesses by examination type on the score report.

DUPLICATE SCORE REPORTS

You may request a duplicate score report after your examination by emailing scorereport@psionline.com.

TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION

The following suggestions will help you prepare for your examination.

- Planned preparation increases your likelihood of passing.
- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Read study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory, and it is also an excellent business practice. Underline or highlight key ideas that will help with a later review.
- Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

Now you can take the practice exam online at <https://test-takers.psiexams.com/nvcon> to prepare for your Contractor Examination.

Please note that practice exams are intended only to help testing candidates become familiar with the general types of questions that will appear on a licensing examination. They ARE NOT a substitute for proper education and study. Furthermore, scoring well on the practice exam does not guarantee a positive outcome on an actual licensing examination. You may take the practice exams an unlimited number of times. You will need to pay each time.

Many of these reference materials are also available for purchase at www.psonlinestore.com or by calling the PSI Online Store, toll-free, at (866) 589-3088.

Titles currently in stock are listed on the order form near the end of this candidate information bulletin.

REFERENCE LIST

Candidates may use a silent, nonprinting, non-programmable calculator in the examination center.

This examination is OPEN BOOK.

The following reference material is allowed in the examination center:

- *Construction Business and Law Manual for Nevada*, PSI, 3210 E Tropicana Ave., Las Vegas, NV 89121 (See order form at the end of this bulletin.)

Candidates are responsible for bringing their own references to the examination center. Reference materials may be highlighted, underlined, and/or indexed prior to the examination session. However, references may not be written in, prior to nor during the examination session. Any candidate caught writing or highlighting in the references during the examination will have the references confiscated and will be reported to the department. Furthermore, candidates are not permitted to bring in any additional papers (loose or attached) with their approved references. Any additional materials will be removed from the references and confiscated. References may be tabbed/indexed with permanent tabs only. Temporary tabs, such as Post-It notes, are not allowed and must be removed from the reference before the exam will begin.

TRADE EXAMINATIONS

The Nevada State Contractors Board has approved the Examination Content Outlines. The outlines reflect the minimum knowledge required by contractors to perform their duties to the public in a competent and responsible manner. Changes in the content of the examinations will not be made until changes are made in the reference books.

The examination questions reference specific national codes. However, when practicing as a contractor you must check with each local jurisdiction to ensure compliance with additional regulations or modifications adopted by that jurisdiction.

If there is conflicting information between a code, law, or regulation and another authorized reference text, please be aware that the requirements of the code, law, or regulation prevail, and that the examination questions will be referenced to the code, law, or regulation.

The examination may include questions on:

- Reading and interpreting construction codes and regulations.
- Nevada Health department regulations.
- Appropriate building codes.
- Trade materials, tools, equipment and methods.
- Nevada Occupational Safety and Health Rules.

C-1 PLUMBING AND HEATING CONTRACTOR

SCOPE OF WORK

A person who holds a classification C-1 license may perform any of the work authorized for the subclassifications of the classification C-1 license, including: the installation of boilers and pipes for hot water and steam, including all related fittings, valves, gauges, pumps, radiators, convectors, tanks and lines for fuel oil, chimneys, flues, insulation and other appurtenances; the fabrication and installation of all systems of sprinklers for protection from fire, including the appurtenances; the insulation of pipes, ducts and related equipment. A C-1 licensee may also perform the installation and maintenance of material and fixtures to create sanitary conditions in buildings by providing a permanent means for a supply of safe water and any sanitary waste and vent systems that are required to ensure the appropriate removal of waste

from these buildings; drainage systems for roofs; hydronic heating systems not exceeding 200,000 British thermal units; systems of landscape irrigation; systems to heat potable water, including, without limitation, solar equipment; a permanent means to supply gas for residential and industrial purposes; and pipes for compressed air, vacuums and gases for medical use. A C-1 licensee may also perform the selection, cutting, shaping, fabrication and installation of sheet metal, including, without limitation, cornices, flashings, gutters, leaders, downspouts for rainwater, pans, food service equipment, ducts, louvers, patented chimneys, flues, and metal roof systems. A C-1 licensee may also perform the fabrication and installation of systems for the heating, evaporative cooling and circulation of air, including, without limitation, the installation of solar equipment for that purpose; the installation of pipes from the source of supply of liquefied petroleum and natural gas into a building or structure and the installation of the related vents; the installation, replacement and repair of water heaters, including the connection to existing lines for potable water and gas, the necessary venting and other incidental connections; the fabrication, installation, repair and removal of pipes, pumps, valves and other equipment used in the transfer of chilled water for the control of temperature; the installation, replacement and repair of systems to replenish breathing air for firefighters; and the fabrication, installation, repair and removal of pipes and equipment used for the transmission of water, steam, gas, chemicals, food and other substances for industrial use.

Candidates are responsible for bringing their own references to the examination center. Reference materials may be highlighted, underlined, and/or indexed prior to the examination session. However, references may not be written in, prior to nor during the examination session. Any candidate caught writing or highlighting in the references during the examination will have the references confiscated and will be reported to the department. Furthermore, candidates are not permitted to bring in any additional papers (loose or attached) with their approved references. Any additional materials will be removed from the references and confiscated. References may be tabbed/indexed with permanent tabs only. Temporary tabs, such as Post-It notes, are not allowed and must be removed from the reference before the exam will begin.

The following reference materials are not allowed in the examination center:

- *Nevada Fire Marshall Code Chapter 477*

C-1C PIPE AND DUCT INSULATION

SCOPE OF WORK

The insulation of pipes and ducts to reduce the loss of heat.

# of Questions	Minimum Passing Score	Time Allowed
30	21	1 Hour

C-1D PLUMBING CONTRACTOR

SCOPE OF WORK

The installation and maintenance of: (1) Material and fixtures to create sanitary conditions in buildings by providing a permanent means for a supply of safe water and any sanitary waste and vent systems that are required to ensure the appropriate removal of waste from these buildings; (2) Drainage systems for roofs; (3) Hydronic heating systems not exceeding 200,000 British thermal units; (4) Systems of landscape irrigation; (5) Systems to heat potable water, including, without limitation, solar equipment; (6) A permanent means to supply gas for residential and industrial purposes; and (7) Pipes for compressed air, vacuums and gases for medical use. In addition to any work specified in this paragraph, a person who holds a subclassification C-1d license may install piping for water and gas beginning at the edge of a building and ending at the utility meter for that building.

C-2A ELECTRICAL WIRING CONTRACTOR

SCOPE OF WORK

The installation, alteration and repair of electrical wires, fixtures, appliances and apparatuses, and the performance of any related wiring on existing structures.

# of Questions	Minimum Passing Score	Time Allowed
60	42	2.5 Hours

CONTENT OUTLINE

Subject Area	# of Items
General Electrical Knowledge	4
Service, Feeders, and Branch Circuits	5
Grounding and Bonding	6
Conductors and Cables	8
Overcurrent Protection	4
Special Occupancies and Equipment	5
Electrical Power	5
Low Voltage	2
Lighting	4
Illuminated Signs	2

Fire Detection and Alarm Systems	4
Safety Information	3
Motors	3
Raceways and Enclosures	5

REFERENCE LIST

The reference material listed below was used to prepare the questions for this examination. The examination may also contain questions based on trade knowledge or general industry practices. **Except for Code books**, you can base your answers on later editions of references as they become available. For Code questions, the examinations will be based **only** on the edition of the Code book that is listed.

This examination is OPEN BOOK.

The following reference materials are allowed in the examination center:

- *National Electrical Code or National Electrical Code Handbook*, 2017, Earley, Sheehan, Caloggero, National Fire Protection Assoc, (800) 344-3555, www.nfpa.org
- *NFPA 72 - Standard for National Fire Alarm Code or National Fire Alarm Code Handbook*, 2010, National Fire Protection Assn, 1 Batterymarch, Quincy, MA 02269, (800) 344-3555, www.nfpa.org

Candidates are responsible for bringing their own references to the examination center. Reference materials may be highlighted, underlined, and/or indexed prior to the examination session. However, references may not be written in, prior to nor during the examination session. Any candidate caught writing or highlighting in the references during the examination will have the references confiscated and will be reported to the department. Furthermore, candidates are not permitted to bring in any additional papers (loose or attached) with their approved references. Any additional materials will be removed from the references and confiscated. References may be tabbed/indexed with permanent tabs only. Temporary tabs, such as Post-It notes, are not allowed and must be removed from the reference before the exam will begin.

The following reference materials are not allowed in the examination center:

- *Ugly's Electrical References*, George V. Hart, 2008 or 2011, or 2014, Jones and Bartlett, (800) 832-0034, www.uglys.net
- *Code of Federal Regulations - 29 CFR Part 1926 (OSHA)*, with latest available amendments, U.S. Government Printing Office, (866) 512-1800 or https://www.osha.gov/pls/oshaweb/owastand.display_standand_group?p_toc_level=1&p_part_number=1926
OR
Code of Federal Regulations - 29 CFR Part 1926 Selections by PSI, with latest available amendments, (866) 589-3088, www.psionlinestore.com (See order form at the end of the Candidate Information Bulletin.)

C-2C FIRE DETECTION CONTRACTOR

SCOPE OF WORK

The installation, alteration and repair of electrical sensors and alarms used to detect heat and smoke, including all appurtenances and related wiring.

# of Questions	Minimum Passing Score	Time Allowed
55	39	2 Hours

CONTENT OUTLINE

Subject Area	# of Items
General Electrical Knowledge	5
Wiring	8
Grounding	3
Power Supply	5
Detectors	15
Alarms Notification	14
General Regulations	5

REFERENCE LIST

The reference material listed below was used to prepare the questions for this examination. The examination may also contain questions based on trade knowledge or general industry practices. **Except for Code books**, you can base your answers on later editions of references as they become available. For Code questions, the examinations will be based **only** on the edition of the Code book that is listed. This examination is OPEN BOOK.

The following reference materials are allowed in the examination center:

- *National Electrical Code or National Electrical Code Handbook*, 2017, Earley, Sheehan, Caloggero, National Fire Protection Assoc, (800) 344-3555, www.nfpa.org
- *NFPA 101- Standard for Life Safety Code*, 2003, NFPA, 1 Batterymarch, Quincy, MA 02269
- *NFPA 72 - Standard for National Fire Alarm Code or National Fire Alarm Code Handbook*, 2007, National Fire Protection Assn, 1 Batterymarch, Quincy, MA 02269, (800) 344-3555, www.nfpa.org

Candidates are responsible for bringing their own references to the examination center. Reference materials may be highlighted, underlined, and/or indexed prior to the examination session. However, references may not be written in, prior to nor during the examination session. Any candidate caught writing or highlighting in the references during the examination will have the references confiscated and will be reported to the department. Furthermore, candidates are not permitted to bring in any additional papers (loose or attached) with their approved references. Any additional materials will be removed from the references and confiscated. References may be tabbed/indexed with permanent tabs only. Temporary tabs, such as Post-It notes, are not allowed and must be removed from the reference before the exam will begin.

The following reference materials are not allowed in the examination center:

Fire Alarm Signaling Systems, 1994, 2nd edition, Bukowski & O'Laughlin, National Fire Protection Association, 1 Batterymarch, Quincy, MA 02269, (480) 948-3363
Certified Alarm Technicians Manual - Level 1, 2001, call 888-447-1689 or 972-807-6821 to order.

C-2D LOW VOLTAGE

SCOPE OF WORK

The installation, alteration and repair of systems that use fiber optics or do not exceed 91 volts, including telephone systems, sound systems, cable television systems, closed

circuit video systems, satellite dish antennas, instrumentation and temperature controls, computer networking systems and landscape lighting.

# of Questions	Minimum Passing Score	Time Allowed

C-3 CARPENTRY, MAINTENANCE, AND MINOR REPAIRS

SCOPE OF WORK

The construction of form work, framing or rough carpentry necessary to construct framed structures, the installation or repair of individual components of framing systems, rough carpentry or associated work, including the construction or installation of subflooring, siding, exterior staircases and railings, roof decking, truss members and sheathing, and the fabrication, installation, remodeling and repair of wood and wood products for structural and finishing purposes, such as doors, windows, cabinets and fixtures. The installation, repair and finishing of cabinets, sash casing, door casing, wooden flooring, baseboards, countertops and other millwork. Finish carpentry does not include the installation of ceramic tile, marble and artificial or cultured stone. The installation of material used for the insulation of buildings and the application of weather stripping and caulking for the internal control of the effects of weather. The fabrication, erection and installation of guides, counterweights, tracks, weather stripping, automatic and manual controls and all other apparatuses and equipment appurtenant to the efficient installation and operation of overhead doors. The installation, taping and finishing of drywall, panels and assemblies of gypsum wallboard, sheathing acoustical tile and studs made of sheet metal for the framing of ceilings and nonstructural partitioning.

C-14 STEEL REINFORCING AND ERECTION

SCOPE OF WORK

The fabrication, placement and tying of steel reinforcing bars (rods), and post-tensioning to reinforce concrete buildings and structures. The fabrication and erection of structural steel shapes and plates used as structural members, or tanks, including any connected riveting, welding and rigging. The assembling, casting, cutting, shaping, stamping, forging, fabricating and installing of metals for the architectural treatment, ornamental decoration or security of structures, but does not include the work authorized by a classification C-13 license issued by the Board in the specialty of using sheet metal. The installation of such materials as are generally accepted by contractors for use as curtain wall materials. The installation of metal doors and frames and metal windows and frames. The construction of window walls in the fronts of stores and the installation of lightweight metals to a height not exceeding 25 feet from the threshold of the entrance on the ground floor of the store. The construction of structures made of prefabricated steel for the support, shelter or enclosure of persons, animals or other chattels. The fabrication and installation of awnings and louvers made of wood, fabric, plastics, metal or other acceptable products. Rigging as it is customarily accepted by contractors and the operation of cranes.

REFERENCE LIST

The reference material listed below was used to prepare the questions for this examination. The examination may also contain questions based on trade knowledge or general industry practices. **Except for Code books**, you can base your answers on later editions of references as they become available. For Code questions, the examinations will be based **only** on the edition of the Code book that is listed.

This examination is OPEN BOOK.

The following reference material is allowed in the examination center:

- *International Building Code*, 2018, International Code Council, 4051 West Flossmoor Road, Country Club Hills, IL 60478-5795, www.iccsafe.org

Candidates are responsible for bringing their own references to the examination center. Reference materials may be highlighted, underlined, and/or indexed prior to the examination session. However, references may not be written in, prior to nor during the examination session. Any candidate caught writing or highlighting in the references during the examination will have the references confiscated and will be reported to the department. Furthermore, candidates are not permitted to bring in any additional papers (loose or attached) with their approved references. Any additional materials will be removed from the references and confiscated. References may be tabbed/indexed with permanent tabs only. Temporary tabs, such as Post-It notes, are not allowed and must be removed from the reference before the exam will begin.

The following reference materials are not allowed in the examination center:

- *NRCA Roofing Manual: Steep Slope Roof Systems*, 2017, The National Roofing Contractors Association, (847) 299-9070, www.nrca.net
- *NRCA Roofing Manual: Metal Panel and SPF Roof Systems*, 2016, The National Roofing Contractors Association, (847) 299-9070, www.nrca.net

C-17 LATHING AND PLASTERING

SCOPE OF WORK

The selection and application of wood and metal lath and any other material or product manufactured to provide key or suction bases for the support of plaster coatings, including channel iron for the support of fireproof lath and solid plaster partitions, but does not include any plastering or erecting of a wall, ceiling or soffit to which the bases are applied, the coating of surfaces with a plaster, made of a mixture of such materials as sand, cement, quicklime, hydrated lime and water, and the installation of lath or other base for the plaster, the installation and coating of gypsum wallboard and sheathing, including the installation of a system of suspended ceilings made of gypsum wallboard, the installation of wood, mineral, fiber and other types of acoustical tile by the use of adhesives or other acceptable means, including the preparation of the surface for the installation, the application to surfaces, whether by manual or mechanical means, of coatings made of stucco and cement, including the preparation of the surfaces and the provision of a base,

including fireproof lath, for the coatings, and the fireproofing of structural members, the erection and installation of studs made of sheet metal for the framing of ceilings and nonstructural partitioning walls.

C-18 MASONRY CONTRACTOR

SCOPE OF WORK

The board will grant to qualified applicants a license in the specialty of masonry. The board designates such a license as a "classification C-18" license. A person who holds a classification C-18 license may select, cut and lay brick, other baked clay products, rough cut and dressed stone, artificial stone, precast blocks and structural glass brick or block at random or in courses, with or without mortar. He may not apply tile to existing surfaces.

C-21 REFRIGERATION AND AIR CONDITIONING CONTRACTOR

SCOPE OF WORK

The construction, erection and installation of devices, machinery and units for the control of air temperatures below 50°F in refrigerators, refrigerated rooms and insulated spaces, and installation of any related insulation, ducts, blowers, registers, controls over humidity and thermostatic controls, lines for supplying natural gas from the unit to the point of connection in the existing line for natural gas at the meter or at any point thereafter, electrical service from the unit's device to protect against excessive current to the main electrical panel, but not the installation of other gas or electric services for the devices, machinery or units, the installation, repair, service and maintenance of equipment, devices, machinery, units and related ductwork which use

evaporation, refrigeration, boilers or combustion for the control of air temperatures in structures where people live, work or assemble or animals are kept, the selection, cutting, shaping, fabrication and installation of sheet metal in such forms as cornices, flashings, gutters, leaders, downspouts for rainwater, pans, kitchen equipment, ducts, louvers, patented chimneys and metal flues, the repair and replacement of any parts of existing units or systems of air-conditioning and refrigeration, including the compressors, motors, relays, coils, heat exchangers and other appurtenances and equipment, but not the replacement of complete condenser assemblies on remote systems, air handlers or any work that may alter the design of an existing system, the installation of the collectors, piping, storage and other equipment used in the conversion of solar energy to energy used for the control of air temperatures, the installation of the chiller, piping, pumps, storage tanks, coils, cooling tower and other equipment used in the production and use of chilled water for the control of temperatures, the fabrication, installation, repair and removal of pipes, pumps, valves and other equipment used in the transfer of hot water for the control of temperatures.

REFERENCE LIST

The reference material listed below was used to prepare the questions for this examination. The examination may also contain questions based on trade knowledge or general industry practices. **Except for Code books**, you can base your answers on later editions of references as they become available. For Code questions, the examinations will be based **only** on the edition of the Code book that is listed. This examination is OPEN BOOK.

The following reference material is allowed in the examination center:

- *Uniform Mechanical Code*, 2018, International Association of Plumbing and Mechanical Officials, IAPMO World Headquarters, 5001 E Philadelphia St, Ontario, CA 91761 USA, 800.85.IAPMO, www.iapmo.org

Candidates are responsible for bringing their own references to the examination center. Reference materials may be highlighted, underlined, and/or indexed prior to the examination session. However, references may not be written in, prior to nor during the examination session. Any candidate caught writing or highlighting in the references during the examination will have the references confiscated and will be reported to the department. Furthermore, candidates are not permitted to bring in any additional papers (loose or attached) with their approved references. Any additional materials will be removed from the references and confiscated. References may be tabbed/indexed with permanent tabs only. Temporary tabs, such as Post-It notes, are not allowed and must be removed from the reference before the exam will begin.

The following reference materials are not allowed in the examination center:

- *Troubleshooting and Servicing Modern Air Conditioning and Refrigeration Systems*, John Tomczyk, 2nd Edition, 1995, ESCO Press, (800) 726-9696, www.escoinst.com,
- *Modern Refrigeration and Air Conditioning*, 19th or 20th Edition, Althouse, Turnquist, & Bracciano, www.g-w.com
- *Code of Federal Regulations - 29 CFR Part 1926 (OSHA)*, with latest available amendments, U.S. Government Printing Office, (866) 512-1800 or https://www.osha.gov/pls/oshaweb/owastand.display_standard_group?p_toc_level=1&p_part_number=1926

C-23 DRILLING WELLS

SCOPE OF WORK

The board will grant to qualified applicants a license in the specialty of drilling wells and installing pumps, pressure tanks and storage tanks considered integral to water wells. The board designates such a license as a "classification C-23" license. A person who holds a classification C-23 license may install and repair water wells, pressure tanks, storage tanks and pumps by boring, drilling, excavating, casing, cementing, dewatering and cleaning to provide a supply of uncontaminated water.

REFERENCE LIST

The reference material listed below was used to prepare the questions for this examination. The examination may also contain questions based on trade knowledge or general industry practices. **Except for Code books**, you can base your answers on later editions of references as they become available. For Code questions, the examinations will be based **only** on the edition of the Code book that is listed.

This examination is OPEN BOOK.

The following reference materials are allowed in the examination center:

- *Uniform Mechanical Code*, 2018, International Association of Plumbing and Mechanical Officials, IAPMO World Headquarters, 5001 E Philadelphia St, Ontario, CA 91761 USA, 800.85.IAPMO, www.iapmo.org
- *NFPA 58 - Standard for Liquid Petroleum Gas Code*, 2014, National Fire Protection Assn, 1 Batterymarch, Quincy, MA 02269, (800) 344-3555, www.nfpa.org

Candidates are responsible for bringing their own references to the examination center. Reference materials may be highlighted, underlined, and/or indexed prior to the examination session. However, references may not be written in, prior to nor during the examination session. Any candidate caught writing or highlighting in the references during the examination will have the references confiscated and will be reported to the department. Furthermore, candidates are not permitted to bring in any additional papers (loose or attached) with their approved references. Any additional materials will be removed from the references and confiscated. References may be tabbed/indexed with permanent tabs only. Temporary tabs, such as Post-It notes, are not allowed and must be removed from the reference before the exam will begin.

The following reference materials are not allowed in the examination center:

- *NFPA 54 - Standard for National Fuel Gas Code*, 2012, National Fire Protection Assn, 1 Batterymarch, Quincy, MA 02269, (800) 344-3555, www.nfpa.org

C-41 FIRE PROTECTION CONTRACTOR

SCOPE OF WORK

The fabrication, installation, alteration, repair and service of fire protection systems using water, including required pressure and storage tanks, fire pumps and drivers, sprinkler heads and nozzles, and all associated valves and piping. Included in this classification is control wiring, any required excavation, backfilling and grading, and piping to a water supply which is not on the premises but is adjacent to the property with the fire protection system, the fabrication, installation, repair and service of fire protection systems using foam, gas or dry chemicals, including pressurized storage tanks, valves, associated piping and sensing and control devices, the installation, alteration, repair and servicing of electrical sensors and alarms used to detect heat and smoke, including all appurtenances and related wiring.
