EXAMINATIONS BY PSI

This Candidate Information Bulletin provides you with information about the examination and application process for becoming licensed or certified as a real estate appraiser in South Carolina. To be licensed or certified, you must pass an examination to confirm that you have attained at least a minimum level of knowledge regarding the principles, practices, statutes and regulations. South Carolina's Office Of Property, Environmental, Design And Construction Services (OPEDACS) has contracted with PSI licensure:certification (PSI) to conduct its examination program. PSI provides examinations through a network of computer examination centers in South Carolina. PSI works closely with the South Carolina Real Estate Appraisers Board to be certain that examinations meet local as well as national requirements in basic principles of appraisal and examination development standards.

Apply to the Real Estate Appraisers Board prior to registering with PSI for an examination. Once you are approved, you will receive an Examination Eligibility letter. Examination Eligibility is valid for 1 year. Register for a real estate appraiser licensing or certification examination with PSI Examination Services.

Following are the National Uniform Licensing and Certification Examinations, developed by the Appraiser Qualifications Board (AQB), as the Licensing Examinations for Appraisers in South Carolina offered by PSI:

- State Licensed Appraiser
- Certified Residential Appraiser
- Certified General Appraiser

GUIDELINES FOR LICENSE APPLICATION/QUALIFICATION

To make the license qualification process go as smoothly as possible, be certain that you:

1. Obtain the appropriate eligibility (e.g., number of hours of education) in advance of applying to the Appraisers Board.
2. After approval by the Appraisers Board of your eligibility, prepare for the examination by using the content outline in this Candidate Information Bulletin as a guide of reviewing your prelicense course material.
3. Be sure that the examination registration form that you submit to PSI is complete and accurate, and that you include the correct fees.
4. Be sure to take proper identification with you to your scheduled examination appointment.

TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION

The following suggestions will help you prepare for your license examination. Planned preparation, in addition to the required classroom hours, increases your likelihood of passing.

- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Review your prelicense course materials with a special emphasis on the topics listed in the examination content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice. Underline or highlight key ideas that will help with a later review.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

- The subject assignment is to appraise a vintage house built in 1880 using the cost approach. The house has metal stamped ceilings, lath, and plaster walls, which are items not easily available in today's construction. The estimated replacement cost using modern materials is \$120 per square foot. Contractors charge \$15 more per square foot to work on older houses. The estimated reproduction cost is \$185 per square foot. What is the estimated loss in utility?

- A client requires the cost approach be completed for a warehouse located in an industrial park. There are no vacant land comparables in the market area. There are three sales of commercial buildings in the industrial park with similar lots that the appraiser has researched extensively. The appraiser found the following information:

Sale 1 sold for \$1,750,000. The buyer allocated 20% of the value to the site and 80% to the value of the structure.

Sale 2 sold for \$1,000,000. The buyer was not available for verification, but the seller was available. The seller had just built the structure after holding the lot for 10 years as an investment property. The seller paid \$100,000 for the lot and had earned 25% straight line annual return on his investment over the cost of the structure and its entrepreneurial profit.

Sale 3 sold for \$3,500,000. The buyer estimated that 90% of what he paid was for the structure.

What is the indicated value of the lot using the allocation approach?

- A. \$125,000
- B. \$135,000
- C. \$350,000
- D. \$500,000

The homeowner has decided to build a smaller home on the vacant side lot and retain the existing home as a rental. What term applies to the second yard?

- A. Excess land
- B. Surplus land
- C. Underutilized site
- D. Vacant site

6. While working on an appraisal of a residential property in a new home subdivision, the appraiser finds that the builders have a total of 100 home sites currently offered for sale. In measuring market demand, the appraiser notes that all of the builders combined are currently averaging two new sales contracts per month, and are expecting to sell 24 dwellings within the next year. What conclusion can be drawn with regard to the 100 available home sites and a market period of the next 12 months?

- A. The market is in a condition of supply and demand
- B. The market is in a condition of balance
- C. The market is in a condition of undersupply
- D. The market is in a condition of oversupply

TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers.

TEST QUESTION SCREEN

The "Function Bar" at the top of the test question provides mouse-click access to the features available while taking the examination.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

SCORE REPORTING

In order to pass the examination, you must achieve a minimum scaled score of 75. You will receive your score report immediately following the completion of the examination.

Candidates passing the examination will receive ONLY a score indication of PASS. Passing numeric scores are not available. Candidates who do not pass will receive an individual score for each of the major sections in the examination outline. Candidates should use this information to assist them in studying for the re-examination.

Scaled scores can range from 0 to 110, with 75 and above representing passing. Scores are reported to candidates as scaled scores. The scaled scores are computed from raw scores. Raw scores, or percentage scores, are the actual number of questions answered correctly. Raw scores are mathematically converted to scaled scores to maintain a consistency in the meaning of scores, regardless of when the examination was taken. Examinations change over time. Each examination may vary in difficulty with one examination easier or more difficult than other examinations. However, when converting raw scores to scaled scores, it should not make a difference whether candidates take an easier or more difficult examination. With the mathematical adjustment, the scaled score accounts for differences by adjusting the scores up or down depending on the difficulty of examinations. When these adjustments are made, the effect is to produce an unbiased and constant passing standard that does not change from one examination to another. A scaled score is not a percentage score, but simply a transformation of a raw score to report comparable results when examinations vary in difficulty.

DUPLICATE SCORE REPORT

You may request a duplicate failing score report after your examination by emailing scorereport@psionline.com or by calling (855) 746-8173.
